

Martial Law in Peking; Hundreds Slain in War Between Rival Generals

**U. S. LEGATION ASKS
WAS TROOP SEND
ANOTHER WARSHIP**

**Chinese People Terrified; Nation's
Industry Demoralized by Clash
Between Two Armies**

Consuls Worried

**Consider Requisitioning Means of
Transport—French and British
Gunboats Arrive**

(By the Associated Press.)

Peking, April 30.—Martial law was
declared in Peking today.

The armies of General Chang Tso-
Lin and General Wu Pei-Fu fought
continuously through Sunday. The
fighting centered around Chang Sin-
Tien, 12 miles distant. A government
communique says Chang Tso-Lin was
victorious in the fighting at Machang.

The American legation has request-
ed Washington to send another war-
ship to Tien-Tsin.

President Hsu Shih Chang, in con-
sequence of the fighting today, has
issued three proclamations calling at-
tention to the serious consequences
to China which might result from the
jeopardizing of foreign interests.

The first proclamation said the
Chinese people were terrified, that
merchants were suffering losses and
the industry of the nation was de-
moralized. Therefore it was demand-
ed that Chang Tso-Lin and Wu Pei-

Fu immediately withdraw their
armies.

The second proclamation declared
that as Peking was the capital of the
nation, peace and order must prevail.
The gendarmerie under the direction
of the chief of the metropolitan area
must take adequate measures to meet
the situation.

Must Protect Foreigners.
Emphasis was laid in the third
proclamation on the necessity to pro-
tect the lives and property of for-
eigners and for compliance with
treaties with the powers. It was
added that the Chinese railroad ad-
ministration had sent a protest to the
government asserting that the rail-
roads of the country faced bankruptcy
in consequence of the suspension
of traffic and that this fact involves
foreign obligations.

The fighting Sunday was sporadic
throughout the war area; there were
no signal gains by either side. The
most persistent conflict appeared to
be centered around Chang Sin-Tien,
southwest of the Peking wall, where
Wu Pei-Fu is concentrating for a
drive in an attempt to turn Chang
Tso-Lin's western front from Tien-
Tsin.

Chang Tso-Lin's forces occupied
the village of Chang Sin-Tien where
100 wounded have been taken into
the houses of natives. Some of the
wounded in the fighting have been
brought to the hospitals in Peking.
The dead were left on the battlefields.
Reliable details as to the casualties
are not obtainable because the Chi-
nese are keeping no record of them.

The military situation Sunday as
gathered from legation attaches here
is as follows:
Chang Tso-Lin and Wu Pei-Fu
each have 50,000 men under fire or in
position. Wu Pei-Fu is bringing up
reinforcements from the Yan-Tse
province. Chang Tso-Lin is sending
forces from Mukden which soon will
increase the total effective to more
than 100,000 on each side.

U. S. Officer Visits Battlefield.
Commander Charles T. Hutchins,
American naval attaché at the legation
here, returned today from the

battlefield. The automobile he used
blew the American attaché reported
the firing had not ceased during the
last 36 hours. From a hillside over-
looking the Hun river he witnessed
the operation of both armies, with
Chang Tso-Lin's troops holding the
village of Chang Sin-Tien and the Wu
Pei-Fu forces two miles southward
fighting desperately to advance.
Smoke from the cannon enveloped the
hillside, shells were bursting in the
trenches, camels were to be seen
transporting guns to various points,
and refugees were observed running
from their homes. A vivid picture of
the seriousness of the contest was ob-
tained, according to the attaché.
About 1,000 dead or wounded were
observed by Commander Hutchins.

Gunboats at Tien Tsin.
Tien Tsin, April 30.—French and
British gunboats arrived here today.
The foreign American gunboat is ex-
pected.

The foreign consuls met today to
consider the question of requisitioning
means of transport. It is said to be
the plan of Chang Tso-Lin to place a
censorship over the post and telegraph.
According to a communique issued
here today, General Chang Tso-Lin
has won a victory in the fighting at
Machang. It is claimed by the com-
munique that General Wu Pei-Fu
lost several hundred men killed and
wounded or made prisoner. It is added
that Chang Tso-Lin also suffered
casualties.

Hong Kong, April 30.—Dr. Sun Yat
sen, head of the South China govern-
ment at Canton, in an interview today
at Canton declared that he had com-
bined with General Chang Tso-Lin
against General Wu Pei-Fu. Dr. Sun
added that he would start shortly for
North Carolina.

London, April 30.—An airplane
used by the Chi-Li forces flying from
Taotingfou to Fengtai dropped a bomb
without damage, near a train car-
rying a detachment of American mar-
ines to Peking, says a dispatch to the
London Times from Peking.

"I'M READY TO GO," CROKER DECLARED

**American Flag Flies at Half Mast
Over Dublin Home of Former
Tammany Hall Leader**

(By the Associated Press.)

Dublin, April 30.—The last mo-
ments of Richard Croker were peace-
ful and happy. The former leader of
Tammany Hall died Saturday at 3:30
p. m. with resignation in the presence
of his wife, her brother-in-law, R. D.
Garrett of Oklahoma, Dr. Lennon of
Dublin and Father Kelley, the parish
priest of Sandy Ford.

The American flag flew at half mast
over the residence of Mr. Croker
today. Burial will take place in the
tomb in the grounds of
Glencarrig Castle, the erection of
which Mr. Croker superintended him-
self. The vault was completed a week
ago last Thursday, when the old poli-
tician remarked, "I'm ready to go
now." A public funeral is not likely
as Mr. Croker expressed the wish
that he be laid to rest quietly.

As the casket must come from Lon-
don, the funeral probably will take
place Thursday after a regium mass
in the private oratory of the castle.

Under the leadership of Richard
Weistad Croker, Tammany Hall be-
came one of the most efficient and
successful political machines that
ever existed in the United States. It
was under his leadership also that
public condemnation was visited upon
the organization in unstinted measure
for the alleged unscrupulous manner
in which it was conducted. For nine
years Croker's mastery hand abso-
lutely dominated New York city's
Democratic organization and during
that time Tammany was invariably
victorious at the polls.

From a poor Irish immigrant boy,
none too well educated, he forced him-
self by courage and self-aggression
and by potent public criticism, into
the leadership first of one of New
York city's gangs, then into numerous
city offices, and eventually into the
leadership of Tammany hall, where he
came in contact and dealings with
many of the leading financiers and
business men of the city.

He was rewarded by the accumula-
tion of great wealth, the source of
which was never exactly known by
the public. "Where did he get it?"
was once the question of the hour in
New York; but Croker never answer-
ed it.

He spent his wealth lavishly in
maintaining a magnificent furnished
home in New York, a stock farm in
New York state, and in buying a half-
interest in the famous Belle Mead
stock farm near Nashville, Tenn. He
invested limited funds of thousands
of dollars in race horses and in main-
taining a racing stable in England.
While seeking and winning honors on
the British turf, he first occupied a
fine home at Wantage, Eng., and af-
terward bought his present home at
Glencarrig, near Dublin, Ireland. He
maintained an establishment at Palm
Beach, Fla.

Croker was born at Black Rock, near
Cork, Ire., November 24, 1841. His
father came to America when Rich-
ard was a child. For a few years
the family lived in Cincinnati, but
soon returned to New York.

KILLED BY PITCHED BALL.
New York, April 30.—A pitched
ball which struck Earl Heuer, 26, of
Brooklyn, in the head while he was
at bat in a game at Brooklyn yester-
day, resulted in his death today. He
was playing on an amateur team.

**FOREST FIRES THREATEN
LAND NEAR BINGHAMTON**

Binghamton, April 30.—Thousands
of acres of wood lands south of this
city are threatened by forest fires
which have been raging all day. The
fires originated in what is known as
the French tract and spread over a
large area of virgin forest lands.
Organized groups of fire fighters have
been attempting throughout the day
to check the flames.

**System of Settling Rail
Wage Fights Condemned**

Washington, April 30.—Only in-
interrupted railroad service, rail-
road managements should be free to
exercise individual initiative and
judgment and employees free to
resort to the measure of organization
in any case the object sought
should be adjusted by conference and
without direct mention of the Rail-
road Labor board, the commission
field, adding that "experience dem-
onstrates that a continued arbitra-
tion body to which either side may
refer disputes multiplies rather than
diminishes disagreements."

Earnings Show Big Increase.
Washington, April 30.—Prelimi-
nary reports filed by 123 Class I rail-
roads representing a total mileage of
150,000 gave their net operating ex-
cess for March as \$61,678,000, as
compared with \$13,563,900 during
the same month last year, according
to the Association of Railway Ex-
ecutives.

First Jury in West Virginia Treason Trials

Jury picked to try Bill Blizzard, first of West Virginia union miner leaders
tried for treason. Left to right, lower row: Sheriff W. O. Macgregor of Jefferson coun-
ty, G. W. Mcates, C. F. Doherty, standing on first step, C. M. E. Brown,
P. E. Swindlow, B. E. Landis, Harry Hendricks, D. B. Shoemaker, W. M.

103 BOYS NOW IN THE "Y"

**Eighty-Five Members Secured During
Campaign Which Closed Saturday
Night—President Beckstedt Presents
Baseball to Four Best Individual
Workers.**

The Y. M. C. A. Boys' Department
membership drive came to a close Sat-
urday night at 9 o'clock with a total
of 85 members secured by the cam-
paign workers. This brings the mem-
bership of the department up to 103,
a number of memberships having not
yet run out. Although the workers
did not succeed in reaching their goal,
it is planned to conduct a new idea
for boosting the membership to the
desired total of 125. Details will be
discussed at a meeting of the Boys'
council to be held at 7 o'clock this
evening.

The Whites, who, during the early
days of the campaign trailed along in
the rear, sprung a surprise by bring-
ing in a bunch of memberships Sat-
urday and came out on top. The final
standings of the three divisions follow:
First—Whites, 55 members; 414
points. Sunday's president, commander;
Charles Lauren and Kenneth Wheel-
er, captains.

Second—Reds, 27 members; 352
points. Sanford Haines, commander;
Clayton O'Dell and James Martindale,
captains.

Third—Blues, 23 members; 316
points. Charles Beams, commander;
Clarence Preston and Clinton Knapp,
captains.

As an incentive to hard work during
the last day of the campaign, M. V.
Beckstedt, president of the Oneonta
"Y," offered to donate a regulation
championship baseball to each of the
four boys who made the best show-
ing. The fortunate lads are Stuart
Pratt and Harold Keen, each of
whom secured nine members, and
Sanford Haines and Clinton Knapp,
who got eight members apiece.

At Saturday's campaign supper, H.
Spencer Rowe spoke to the boys. He
told the workers that they should be
glad of the opportunity to get boys
to join an institution like the "Y" and
they would feel as if they had done
something worth while. He urged the
boys to become dependable, telling
them that the boys who do things are
not the ones who go around making
a lot of noise about their work. His
talk was much enjoyed.

An ice cream social will be held
at the "Y" Tuesday evening at
7:30 to get acquainted. All members
of the Boys' department are urged to
be present.

Orchestra practice tonight at 7:45.

TWO KILLED, MANY INJURED IN MAY DAY EVE DISORDERS

Sofia, Bulgaria, April 30.—Anarch-
ists and Communists in a May Day
eve demonstration came in collision
with the police, into whose ranks they
threw a bomb. The police opened
fire with their revolvers. Two persons
were killed and many injured.

Rome, April 30.—May Day here is
expected to pass quietly. The govern-
ment has given permission to labor
organizations to hold meetings but it
is not believed they will develop dis-
orders. The ban has been placed on
parades so as to avoid conflicts.

FOREST FIRES THREATEN LAND NEAR BINGHAMTON

Binghamton, April 30.—Thousands
of acres of wood lands south of this
city are threatened by forest fires
which have been raging all day. The
fires originated in what is known as
the French tract and spread over a
large area of virgin forest lands.
Organized groups of fire fighters have
been attempting throughout the day
to check the flames.

TOWN CLERK BEATEN BY THREE CAPTORS

**Official's Action in Interrupting
Funeral Leads to Attack
on Country Road**

Syracuse, April 30.—Edgar Seales,
clerk of the town of Otisco, was kid-
napped shortly after midnight this
morning, taken into an automobile
by his three captors, and taken along
a country road where he was severely
beaten and left bound, three miles
from home. The attack is said to
have resulted from feeling aroused in
the village when Seales interrupted a
funeral last Tuesday.

Seales, in a statement to county
authorities today, said he halted the
funeral of Mrs. Francis M. Hend-
erson at the gates of Hillside cemetery,
of which he also is in charge, because
arrangements had not been made
with him as town clerk, in advance,
and because the grave which had
been dug to receive the casket of
Mrs. Henderson was prepared with-
out his authorization.

After the ceremony was interrupted,
the mourners returned home and ar-
rangements were made for burial in
the near-by Amherst cemetery, two
days later.

Seales claimed the attack was the
result of a neighborhood feud follow-
ing his action. He said he knew the
names of his assailants and will seek
warrants for their arrest tomorrow.

VINCENT FARONE MARRIED

**Well-Known Young Business Man
Takes Miss Anna M. Perri, Char-
ming Carbondale Girl, as Bride.**

A pretty nuptial event was solemn-
ized at 9:30 o'clock last Wednesday
morning in Our Lady of Mount Car-
mel church at Carbondale, Pa., when
Miss Anna M. Perri, daughter of Mr.
and Mrs. J. J. Perri of Carbondale, be-
came the bride of Vincent A. Farone,
son of Mr. and Mrs. Joseph Farone of
Oneonta. The ceremony was per-
formed by Rev. A. S. Cerutti, pastor
of that church, in the presence of a
throne of fashionable guests. The
ceremony was held at the church. Rev.
Cerutti also celebrated the nuptial
mass, which followed the ceremony.

As the bride party entered the
church the wedding march was played
by Miss Lillian Devine, church or-
ganist. During the ceremony, Frank
Seales, a beautiful tenor voice, sang
"Promises Me," and at the offertory
of the mass rendered an "Ave Maria."

The bride was beautifully gowned in
white tulle and carried a white tulle
veil. She was escorted by a young
man in a tuxedo. The bride's bouquet
was a shower of pink roses. Miss Rosa
M. Farber of Carbondale, the bridesmaid,
made a charming appearance in a gown
of henna crepe, with black hat, and
carried a shower bouquet of pink roses.
The groom was attended by Raymond
Hoare of Carbondale.

Following the ceremony, a recep-
tion and dinner was held at the home
of the bride for the families of the
contracting parties, and a few im-
mediate friends, including teachers from
the school where the bride taught for
several years.

Mr. Farone, an extended wedding trip
which will include New York city and
Washington. Upon their return they
will reside at 38 East street, Oneonta.

The bride is a charming young wo-
man and is very popular in social cir-
cles in Carbondale. She is a graduate
of the Carbondale High school and
Mansfield Normal school. The groom
is a well-known young business man
of Oneonta. He was in the service of
his country during the World war and
was with the 27th Division Bakery
company in France for more than two
years. He is a member of the local
American Legion post.

The couple received many beautiful
and valuable wedding gifts, including
silver, cut glass, mahogany and
money. The groom's gift to the bride
was a string of pearls.

Those present at the wedding from
Oneonta were Mr. and Mrs. Joseph
Farone, Amelia Farone and the Misses
Hopo and Mary Farone.

COUNTY SPELLING CONTEST

**Champion Spellers of Otisco will
Compete Here on June 13 for Right
to Represent County at State Dec.**

The contest to determine who shall
represent Otisco county at the State
Spelling Bee to be held at Syracuse
during State Fair week, September
11-15, will be held at the Otisco
High school on Tuesday, June 13, at
1:30 o'clock. Each township will send
one contestant to the county contest
and the city of Oneonta will have four
entries, making a total of 25 who will
strive for the honor of competing in
the state bee.

In each of the six supervisory dis-
tricts in the county a contest will be
held to determine who shall compete
in the county contest. These prelimi-
nary contests will be held at such
times and places as the district su-
perintendents shall direct. For the
fourth district, of which J. T. Freder-
ick of this city is superintendent, pre-
liminary contests will be held at fol-
lows: For Unadilla High school on
Tuesday, June 6, at 9 o'clock; for Otis-
go at the Otisco High school, June 7
at 9 a. m.; for Milford at Milford High
school, June 8 at 10:30 a. m.; for
Otisgo at Otisgo High school, June 9
at 9 a. m. Each school in each
town will send one or two students to
the preliminary contests.

The winner of the county contest
will receive railroad fare to and from
Syracuse and admission to the State
Fair grounds. To the four winners of
the state contest, prizes in gold will be
awarded as follows: First, \$20; sec-
ond, \$15; third, \$10; fourth, \$5. The
state spelling bee will occupy two
days, the first being given to the
spelling contests and the second to
nightseeing around the grounds. Con-
testants will be entered into the in-
tervening night at dormitories pro-
vided for the purpose.

POPE URGES AN ERA OF PEACE

**Admonishes of Disasters Likely to
Befall Mankind if Present
Efforts Should Fail**

QUIET DAY AT GENOA

**Rumors Persist That Morgan Rep-
resentatives Are Confering on
German Reparations**

(By The Associated Press.)

Genoa, April 30.—Pope Pius,
through Cardinal Gasparri, has ad-
dressed to the governments and peo-
ple of the world a letter which is de-
scribed as a spiritual and a new admonition
of the disasters likely to befall mankind
if efforts for true pacification should
fail. This act by the Pope has cre-
ated great interest.

Commenting today, Premier Lloyd
George said:
"I cannot say how pleased I am at
this remarkable document, nor could I
exaggerate the terms in which it is
couched. The Pope speaks with first-
hand knowledge of conditions in East-
ern Europe and I feel that so clear
and definite a pronouncement by the
Holy See in favor of peace with Rus-
sia is a great encouragement to the
Christian powers assembled at Genoa."

The ideals of the Pope are being
preached here by Don Luigi Sturzo,
leader of the Italian Catholic party,
which is attaining a unique position in
an unofficial capacity at the confer-
ence. There seems to be a remark-
able identity of views concerning in-
ternational co-operation and interna-
tional brotherhood proclaimed by
Sturzo with those Lloyd George has
recently been uttering in connection
with the necessity of making some
co-operative arrangement with all the
people of Europe, including, especial-
ly, Russia and Germany.

Officially the economic conference
saw little activity today.

Hopes For Union and Peace.

London, April 30.—The Pope's
letter, as sent by the correspondent
of the Morning Post in Genoa, speaks
in moving terms of the sufferings of
the populations of Eastern Europe,
who, he says, will benefit in a special
degree by the advent of a new era of
humanity.

"To those populations," said the
letter, "although divided from our
common lot by an ancient misfor-
tune, we, like our predecessors, ad-
dress our message of compassion and
comfort and at the same time the ar-
dent desire of our paternal heart to
see them rejoice with us in the same
gifts of union and peace which result
from full participation in the sacred
mysteries."

Important Financial Conversations?
Paris, April 30.—A dispatch to the
Temps from Genoa says a per-
sistent report is current there that
important conversations regarding
financial matters have been in pro-
gress in the past few days between Dr.
Walter H. Ruggie, American finan-
cial expert, and M. Delcroix of Belgium and representatives
of the firm of J. P. Morgan &
Company, New York, concerning an
American loan to Germany to aid in
facilitating that country in the pay-
ment of reparations.

The Temps, in an editorial, notes
that what has been referred to
as an ultimatum to the Bolsheviks
now has become a memorandum.

SUMMER RESIDENT DIES.

**Robert Smith Hobart Passes Away
at Hobart Saturday Evening.**

Hobart, April 30.—Robert S. Hobart
who returned to his summer home
here on Friday from the Fox Mem-
orial hospital at Oneonta in a critical
condition, passed away at a chronic
condition, at 8 o'clock from a chronic
condition. The funeral services will be
held from the residence on Tuesday
at 2 o'clock. Rev. W. N. Hawkins of
St. Peter's Episcopal church will
officiate and interment will be made
in Locust Hill cemetery.

Mr. Hobart was born here Feb. 27,
1848, but most of his active life was
spent in New York city, his former
name having been Robert Hobart
Smith. About 8 years ago he retired
and built a summer bungalow here
and at that time secured legal ap-
proval of the change in name to
Robert Smith Hobart.

Mr. Hobart is survived by a wife
and a son and daughter, both resid-
ing at home. He has lived a rather
secluded life since becoming a sum-
mer resident here. He has been re-
sident here only about three weeks
ago and went to Oneonta for hospital
treatment about a week since.

MOTHER OF PERCY GRAINGER, PIANIST, ENDS LIFE IN FALL

New York, April 30.—Mrs. Rosa
Grainger of White Plains, mother of
Percy A. Grainger, composer and pi-
anist, was killed today by a fall from
an 18th story window in the
Hotel Hamilton, New York, and was
sent to her son, who is said to be in
Los Angeles on a concert tour.

Mrs. Grainger, who was 60 years
old, and wealthy, was spending the
week with Mrs. Antonio Sawyer in
the hotel. Mrs. Sawyer, who is a
well-known pianist, was with her
when she fell. Mrs. Grainger was
on the roof of the hotel when she
fell. She was missing for some time
before she was found. Her death was
a great loss to the musical world.

NEW YORK COURTS SHOWING SPEED

**2,238 Criminal Cases Disposed of
During Four Months of
This Year**

New York, April 30.—The speed
with which the courts are acting in
their efforts to check crime in this
city was indicated in a report today
by District Attorney Banton, which
showed 2,238 criminal cases disposed
of during the four months of this year
against 1,489 for the same period last
year. The standing calendar still con-
tains 2,141 cases, about 200 fewer
than on May 1, 1921.

Indictments filed by the grand jury
during the four months this year to-
talled 1,925, with 1,155 cases dis-
missed. The figures of last year
were: Indictments, 2,196; dis-
missals, 444.

Thirty-three homicide convictions
have been obtained thus far this year,
as against 12 in the first four months
of 1921, the report showed.

PROM A COMPLETE SUCCESS

**Normal Students Bring Annual Social
Event to a Close with Tea Dance
Saturday Afternoon.**

The Junior Prom at the Normal
school wound up in the most approv-
ed fashion Saturday afternoon with
a dance in the school gymnasium.
The dance was given by the Juniors
in honor of the Senior class and the
first year students proved very cap-
able hostesses, the affair being fully as
enjoyable as the formal dance of the
preceding evening. The Colgate Five,
with a sixth musician thrown in for
good measure and an abundance of
cup added, furnished music that
peaked the tea tables to be less well
patronized than the excellence of the
refreshments deserved.

The Prom was the outstanding
social event of the school year and
equalled, if it did not excel, similar
events in past years. Many of the
students had guests from their home
towns or from colleges in the vicinity
and the whole affair had a true col-
legiate atmosphere. Most of the
guests departed yesterday, taking with
them, it cannot be doubted, very
pleasant recollections of the hospitali-
ty of the Oneonta Normal class of
1923.

YOUTHS "FIGHT IT OUT" IN RIFLE DUEL, ONE KILLED

New York, April 30.—A 19-year-
old boy was slain by a 16-year-old fel-
low-camper near Jamaica, Long Is-
land, today, as the climax of a strange
rifle duel in which the two had stalked
each other from behind trees.

Jacob Kabit, chief of a camping
party of four boys, quarreled with
Victor Janculidich, 16, the cock of the
quartet, when he "spilled a can of
soup. Each of the disputants had a
new rifle and when one suggested that
they "fight it out," it was so agreed.

Taking their rifles, each boy took
up a position behind a tree and began
sniping at the other. Janculidich shot
Kabit through the head, killing him
instantly. He was arrested on a homi-
cide charge.

BRAND YOUR AUTO, LATEST.
New York, April 30.—Marking au-
tomobiles with a permanent number,
in much the same manner as ranch
owners brand their horses, is pro-
posed as a means of stopping the in-
creasing number of motor car thefts
in a report made public today by the
Association of Federal and State
prosecutors in New York.

Baseball

AMERICAN LEAGUE

ROBERTSON ENTERS THE HALL OF FAME

Pitches No-Run, No-Hit Game Against Detroit, Not a Tiger Reaching First Base

Detroit, April 30.—Charlie Robertson, Chicago, pitched a no-run, no-hit game against Detroit, the White Sox winning, 2 to 0. Not a Tiger reached first base.

In keeping the Tigers from first base throughout the nine innings, Robertson, who pitched for the White Sox from Minneapolis in 1914, the feat of Addie Joss, hitting against Ed Walsh at Chicago, October 2, 1905, and that of Cy Young, pitching for Boston against Philadelphia May 5, 1904. Robertson was given a perfect game, pitched today and Cincinnati won from Boston, 3 to 0. In the ninth this tripled and scored on an outfield out. Cincinnati's runs were made by sharp consecutive hitting. Pittsburgh 0 0 0 0 0 0 1—7 1 Cincinnati 1 1 0 0 0 0 0—3 10 1 Batteries—Glazner, Yellowhorse and Gooch; Donohue and Wingo.

Manager Cobb called in two pitchers in the ninth in an effort to stop Robertson, but they went down as their teammates did before them.

Aside from the second inning, in which the visitors scored their two runs, Pilett also showed splendid control. The score:

Chicago 0 2 0 0 0 0 0—2 7 0
Detroit 0 0 0 0 0 0 0—0 0 1
Batteries—Robertson and Schulz, Pilett and Manion.

BOSTON DEFEATS NEW YORK

Pratt's Homer in Eighth With One On Breaks Shawkey's Hold.

New York, April 30.—Pratt's home run with Liebold on base in the eighth inning broke Shawkey's streak of scoreless innings, enabling Boston to defeat New York today, 2 to 1. Shawkey had pitched 25 scoreless innings up to the time he was scored upon. Witt was out of the game with an injured ankle.

Boston 0 0 0 0 0 0 2—2 7 0
New York 0 1 0 0 0 0 0—1 8 1
Batteries—Pennock and Walters, Shawkey and Schang.

WASHINGTON DOWNS MACKMEN

Collects Enough Runs in Fourth Inning to Assure Victory.

Washington, April 30.—Washington collected enough runs in the fourth inning today to defeat Philadelphia 6 to 4. The visitors drove Gleason from the box in the next inning but could do nothing with Zachary, who succeeded him.

Philadelphia 1 0 1 0 2 0 0—4 9 2
Washington 0 0 6 0 0 0 0—8 9 3
Batteries—Maitland, Eckert and Perkins, Gleason, Zachary and Ghartry.

ANOTHER SENSATIONAL GAME

Triple Play and Three Double Plays Feature 11 to 9 St. Louis Victory.

St. Louis, April 30.—A triple play by Wamsbans and McInnis of Cleveland and three double plays by St. Louis featured the latter's 11 to 9 victory here today, the third straight over the Indians. Kenneth Williams

Pure Bred Percheron Stallion

Jean Mitchell

149554

Black with white star, stands 16 hands high, weight 1,650. Foaled May 19, 1918.

Will stand for service at my farm on reservoir road, from May 1st to August 1st. Service \$15, to insure mares with foal.

"The pedigree of the above described stallion has been inspected and verified, the stallion, duly examined as provided by Article 5-A of the Agricultural law, by Dr. C. R. Brand. Said stallion shows no unsoundness, and is to be considered as sound."

failed to increase his number of home runs, going hitless for the day. By winning today's contest, the Browns tied the New York team for first place. Cleveland 0 0 1 1 2 0 0—9 14 3
St. Louis 3 0 1 1 2 0 0—11 15 0
Batteries—Hagby, Keefe, Morton, Waite and Shinnell, Davis, Kold, Shucker and Severeid.

NATIONAL LEAGUE

CARDS SHUT OUT CUBS

Pound Alexander and Osborne to All Corners of the Field.

Chicago, April 30.—St. Louis shut out Chicago, 10 to 0, in the final game of the series here today by pounding Alexander and Osborne to all corners of the field. Pfeiffer was in fine form and had the local help when they got men on bases.

St. Louis 4 0 1 0 0 1 1 3 0—10 14 1
Chicago 0 0 0 0 0 0 0 0—0 7 4
Batteries—Pfeiffer and Ainsworth, Alexander, Osborne and O'Farrell.

DOVONUE DE STS GLAZNER

Cincinnati Wins from Pittsburgh, 3 to 1, Ends Tailoring for Pirates.

Cincinnati, April 30.—Dovonue out-pitched Glazner today and Cincinnati won from Pittsburgh, 3 to 1. In the ninth this tripled and scored on an outfield out. Cincinnati's runs were made by sharp consecutive hitting. Pittsburgh 0 0 0 0 0 0 1—7 1 Cincinnati 1 1 0 0 0 0 0—3 10 1 Batteries—Glazner, Yellowhorse and Gooch; Donohue and Wingo.

VAANCE IN GREAT FORM

Brooklyn Makes It Two Straight from Phillies, 4 to 0.

Brooklyn, April 30.—Vance pitched great ball today and Brooklyn made it two straight from the Phillies, 4 to 0. Vance struck out eight batters twice retiring the side by fanning three men in a row the first time in the eighth and again in the ninth after Walker had singled and Williams walked. Philadelphia 0 0 0 0 0 0 0—0 6 0 Brooklyn 0 0 0 1 0 2 1 0—4 9 1 Batteries—Vance, Betts and Henline, Vance and Hunking.

WORLD CHURCH MEETS AUG. 6

Twenty-six Nations to Be Represented at Summer Conference in Copenhagen.

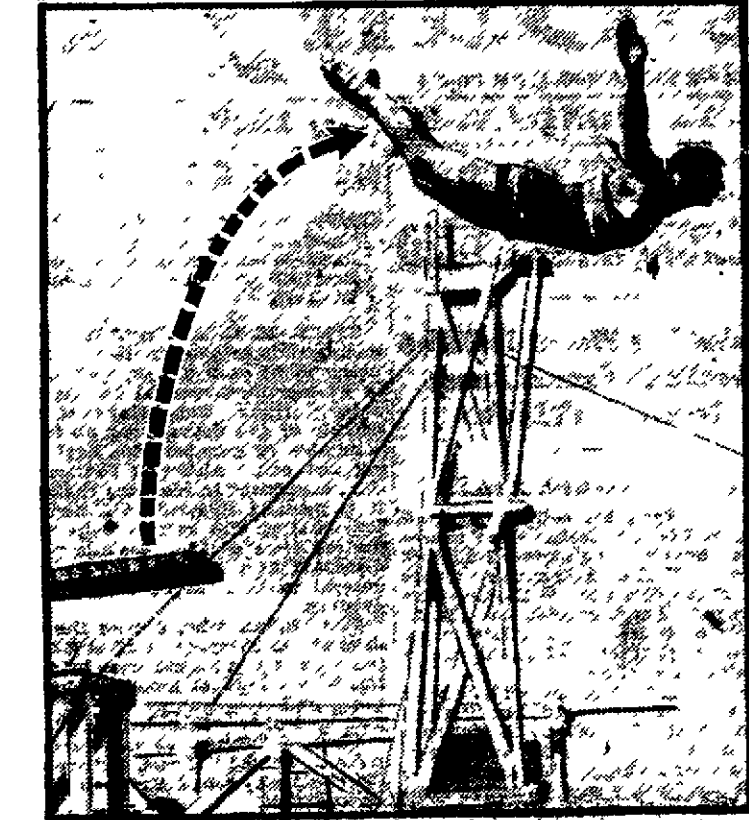

Copenhagen.—The fourth conference of the world alliance of churches, at which representatives of churches of 26 nations will attend, will be held here from August 6 to 12 under the auspices of the World Alliance of Churches, which seeks to promote an international union of church denominations.

The president of the alliance, the archbishop of Canterbury, hopes to be present. Dr. Henry Atkinson of the American Church Union has been visiting Copenhagen to make the final arrangements.

YOUNG PARENTS

Kansas City, Mo.—Mr. and Mrs. Ted E. Burchfield are the youngest parents in this city, according to the records of the city clerk's office. Mr. and Mrs. Burchfield are receiving congratulations on the arrival of a ten-pound son in their home. Mr. Burchfield is fifteen years old and Mrs. Burchfield is only fourteen years old.

Ross in Perfect Swan Dive

RAISE STANDARD FOR TEACHERS

Federal Bureau Is Studying the Question of How to Accomplish It.

MANY INADEQUATELY TRAINED

Grade School Classes Taught by Persons Who Have Not Even High School Diplomas—Trained Teachers Barred.

Washington, D. C.—Commissioner John J. Tigert of the bureau of education and his assistants are studying the question of how to raise the standard of training for school teachers throughout the United States. Thousands of women and men entrusted with the education of large groups of children in the public schools lack what the federal officials regard as an adequate preparation for their work, Doctor Tigert said.

In the grade schools many persons are teaching classes who have not even high school diplomas, according to a recent investigation by the bureau of education. According to the federal standards a man or woman to be properly equipped for teaching should have at least a normal school education. If the teacher is to be that in high schools a college or university diploma should represent adequate training. In other words the training of the teacher should reach considerably beyond the subject to be taught.

Many Are Barred.

Thousands of men and women who were inadequately trained to teach are now barred from the schools. It has been found this is a result of the war. When living costs increased faster than teachers' salaries large numbers of teachers who were well equipped for their work were compelled to step out of the schools into the other labor positions that would pay better. Many were practically forced out by lack of means to remain, although their first interest was with the schools.

There was a national shortage of teachers. Economic depressions followed. Persons with hardly any training stepped into the vacant positions. At the same time the level of salaries paid teachers began to be increased. More and more inadequately trained persons went into the schools as teachers. The shortage of teachers ceased to be a problem. There are now enough, so that few schools need remain closed for lack of men and women to conduct them.

Standard Lowered.

But the teachers who are inadequately trained are holding the positions. And many persons who studied to make teaching their life work are without positions. School boards generally feel that in all fairness these persons who accepted positions when there was a teacher shortage should be retained. The standard of training for teachers has been very largely lowered throughout the schools in all sections of the United States, the reports show. The correction of this situation may take several years, according to Commissioner Tigert.

THIS BEAR IS BULLET-PROOF

Three Slugs From Rifle Fail to Stop Onrush of Bruin in Pennsylvania Woods.

Lewisburg, Pa.—Samuel Crone, a Shamokin butcher, encountered a bear that weighed about 400 pounds, dropped the animal with a bullet from his rifle, but was startled to see the bear rise and, howling with pain, race toward him on all fours.

Two more shots were fired and struck the tough hide of the animal, inflicting painful wounds, but each time the bear refused to stay down, and by the time it was ten feet in front of Crone the latter's weapon jammed.

Desperate, the hunter decided to battle with the brute. He ran as the bear stood his ground as the animal rose on his hind legs as if to rush him. Suddenly, the bear changed its mind, turned and ran limping into the woods.

POOR MEADOWS THIS SPRING

State College Suggests Planting Oats and Other Grains to Forestall Hay Shortage Next Winter.

Ithaca, April 30.—The prospect of many poor meadows this year leads the state college of agriculture here to suggest that even early spring is not too late to reinforce the season's hay crop with special measures. If one sees the need and acts on it soon. The past winter was hard on meadows, the college says, and this together with poor weather for new seeding last summer, has worked havoc with meadows all over the state. Old meadows, poor a year ago, are likely to be still poorer this season and new seedlings didn't get well enough established last summer to be able to come through the winter well.

Oats Make Good Hay.

Oats for hay, alone or in combination with other grains, will save the situation, however, and produce more certainly good crop of high class hay than any other crops, the college says. Barley, peas, or better still, both barley and peas, are used with oats. The mixture of the three does best on soils of medium to high fertility, and three or four bushels to the acre of a mixture of equal parts of the three will make excellent hay, where the grains are in the milk stage and the pea pods are flat. For poorer land three or four bushels of oats alone are sowed.

The cultural and fertilizing methods usually used for oats are recommended, but the college adds the warning that if the land won't grow clover, lime must be added if the peas are to grow, and they should be inoculated if peas have never been grown there before. The grains act as nurse-crop for grass seed sown with them, but the clover adds just about the time the new seedlings begin to need water, nourishment, and light.

"AIR TAXI" SERVICE PLANNED

It Will Be Available to Passengers Landing at Ports in Great Britain.

London.—In connection with the "air taxi" service to be run this year to connect with the arrival and departure of steamships at Southampton and Liverpool, arrangements are being made to order these taxicabs by wireless while the liners are still far out at sea. These wireless orders will be picked up direct by the wireless operators at the London air station, and will be in the hands of the air taxi pilots within a minute or two of being dispatched from the liner.

In this way a passenger arriving in Britain from overseas who wishes to be at his destination at the earliest possible moment can be sure that there is an air taxi waiting for him when his liner berths.

New air taxis, to cope with the greatly increased demand expected this year, are now being built. They include two three and four seaters, and fares will be as low as 20 cents a mile for each passenger.

Laying Record.

Reading, Pa.—Mrs. Ella Yoder of Olney has reported to a local poultry association a remarkable record for egg laying by 11 hens, hatched last April, in the past 121 days. They began laying in October, and in the period named, four months, they laid 671 eggs. All the hens are Plymouth Rocks. Mrs. Yoder fed them boiled potato parings, grain, oyster shells, ground up, and vegetables chopped fine.

Rather Striking.

"But, Bertha, how did you make the acquaintance of your second husband?" "It was quite romantic. I was out walking with my first, when my second came along in an automobile and ran him down. That was the beginning of our friendship."—Hartsville (Okla.) Enterprise.

Time Limit Set.

Because my nephew had been reminded to remove his rubbers before coming into the house and rather urged to depend more on soap and water and less on the towel he remarked, "Well, auntie, I may stand this house of rules till Saturday, but I'm going home then."—Chicago Tribune.

Keep Out Heat as Well as Cold.

The Turkish peasants in Asia Minor believe in keeping out the heat as well as the cold, and it is not uncommon to see in many parts of the country people wearing huge coats in the midst of summer, with the thermometer standing at 100 degrees.

REACTIONARY WEEK ON STOCK EXCHANGE

Reversal Evidently Results From Realizing Sales Rather Than Slowing Down of Interest

New York, April 30.—After two months of irregular advances, involving 21 consecutive sessions of daily transactions in excess of one million shares, the stock market last week manifested reactionary tendencies. The reversal, which was exceedingly moderate in comparison with the many gains of 10 to 25 points suddenly required in greater degree from realizing sales than from any material slowing-down of public interest or support.

Related commitments for the long account served to weaken the market's technical position. Many such accounts were dislodged in the temporary unsettlement of the mid-week but these seemed to be more than neutralized by pool operations.

Efforts of the short interest to capitalize the coal strike, prospective freight rate reductions and the more uncertain phase of the foreign situation, met with little success. Coalers were among the strongest of the railroad stocks; many of the junior rails which showed the sensitive to lower rates were notably strong, and declines in international currency were comparatively unimportant.

Faith in the future of the steel and iron industry was expressed by directors of the United States Steel and Bethlehem Steel corporation. Prevailing common dividend disbursements were declared, although in the case of the first-named company not all of the preferred dividend was cashed.

In other leading branches of industry, financial returns showed a rebound from the final quarter of 1921. Unfavorable weather conditions were responsible for the decrease in the volume of general business but even in that quarter an increased demand for textiles and kindred merchandise was reported.

Acceptance by foremost American financial interests of the invitation to confer with the International reparations commission regarding an international loan to Germany occasioned lively discussion in banking circles. Opinions respecting this country's participation in such a project was widely divergent because of the unstable economic conditions still existing in Germany.

PASTOR A STUDENT

Has Enrolled in High School and Goes There.

One of the regularly enrolled pupils at the high school is Rev. D. C. Lockwood, pastor of the First Methodist Episcopal church at Eureka, Cal. Every day when the school gong rings Lockwood, books under his arm, tramps into the class room with the rest of the pupils and takes his seat.

The preacher is not a "special" student, but is taking a full course, several of his subjects being English, drama, Spanish and glee club work. In addition, he says, he is taking another subject, "the psychology of the young ideal." His work in this consists of studies of his classmates.

Molasses on the Water.

During a hurricane in the West Indies the tank steamship Philip Pucker, carrying molasses in bulk, pumped overboard 280,000 gallons of the liquid to smooth out the seas and break their force. The action of the molasses on the water seemed to have the same effect as oil.—Ship News.

NENE MOOSHAS GIVE DANCE

Seventeen Young Misses, Devotees of Outdoor Life, Give Enjoyable Social Affair at Schenectady.

Schenectady, April 30. — The Nene Mooshas dance held at Hubbard's Opera house Friday evening was one of the most enjoyable affairs of the season. A large number of spectators enjoyed the music furnished by the Klionockle Synopsators of Oneonta. The dancers were more than delighted with the music furnished and the floor was ideal—one of the best floors for dancing is in this hall. The young ladies who comprise the "Nene Mooshas" had decorated the hall in an attractive manner, the colors white and purple being used to good advantage. Mesdames Wild, Robbins, Prout, Banker, Boardman and Campbell were the patronesses present and, Messrs. Wild, Prout, Robbins and Banker, the patrons. Over a hundred dollars was realized. The Nene Mooshas will give several affairs during the next few months. The organization is composed of about 17 young misses, and their objective is to create an enthusiasm for outdoor life and various athletic sports. While not a Girl Scout or Campfire organization, it is along lines somewhat similar.

Conference of Inspectors.

Charles Noxon left Sunday evening for New York, to attend a conference of the New York city food inspectors Monday afternoon at the offices of the Health department, 505 Pearl street, New York city. The annual banquet and ball of the New York City Food Inspectors will be held Monday evening at the Cafe Boulevard in West 41st

for this season. Glenn Youmans re-elected president and Miss Evalena Snyder, treasurer. As tennis is the only available sport to be had at Wells Bridge the best efforts of the young people will be put in the construction of a court for this year, a court that will be equal to any in this vicinity. Anyone interested in this may join by paying to Miss Snyder the dues of \$1.

Home Bureau to Meet.

The regular Home Bureau will meet at the home of Mrs. Herbert Merriman on Tuesday afternoon at 2 o'clock. It will be the last time Miss Nina Short can be present as she continues her work in another county, so old as well as new members are invited to attend this meeting.

News Notes.

W. H. Sisson is having his store painted by Leo B. Sisson.—Ernest Nutter, who has been working at New York city this past winter, has returned to Wells Bridge for the summer.—Miss Lois Stone, who has been spending the Easter vacation with her grandparents in Harpursville, returned home Friday.—Louis Palmer of Schenectady spent Saturday in town.

NEWSY NOTES FROM MILFORD

Meeting of Alumni Association of High School Wednesday.

Milford, April 29.—A meeting of the Milford High School Alumni association will be held at the school building on Wednesday evening, May 3rd, at 8 o'clock. All members are urged to attend.

Class Gives Musical.

Mrs. Leona Wilcox's music class gave a musical at the Wilcox residence last Monday evening. The affair was very informal and everyone enjoyed the evening's entertainment.

Repairs to Parsonage.

The Methodist Episcopal parsonage is being re-papered and re-painted in the interior and being put into condition for the new pastor. Rev. Brooks and family expect to move in about the first of the week.

Sewing Class at Otego.

Otego, April 30.—The Sewing class of the Otego Home bureau will hold an all day meeting from 10 until 4 o'clock in the Methodist church parlors, Wednesday, May 3. Each lady bring lunch for herself. Coffee will be furnished.

The regular May meeting of the club will be held in the afternoon at the same place. There will be a short business session and a talk on Color combinations by Mrs. Appleton Leonard.

Recovering From Operation.

Cooperstown Junction, April 30.—Mrs. Lucy Hubbard Payne is at the home of her mother, Mrs. Charlotte Hubbard, here, convalescing from a recent glandular operation performed at the Albany hospital. Mrs. Payne who is a teacher in the Schenectady schools, is believed to be making a good recovery.

Delaware County News

DELHI BUSINESS MAN DIES

Though in Feeble Health for Years, William Jackson Passes Away Suddenly; Funeral Services Tuesday Afternoon.

Delhi, April 30. — On Saturday morning, at 8:30 o'clock, Delhi was again the home of a death, with one of the oldest residents of the village and the oldest business man, William Jackson. Mr. Jackson had been in feeble health for some years, but his death occurred very suddenly at his residence on Main street, where he had been tenderly cared for by his daughter, Mrs. Willard Mason.

William Jackson was born in Roxbury, Mass., on February 3, 1835. He came to this country when a young man and located in Delhi in the year 1856, going into the employ of a cabinet maker in a shop then located on Meredith street. Two years later Mr. Jackson and his brother, Thomas, succeeded to the business, which they subsequently conducted on Division street for many years, moving to the store now occupied by Jackson and Mason in 1878. During the Civil war and for several years afterward W. & T. Jackson manufactured most of their goods. Willard

R. Mason came to Delhi in 1881 and bought out the interest of Thomas Jackson, thus forming the partnership of Jackson and Mason, which has continued until the senior partner died Saturday.

For a number of years Mr. Jackson was unable to actively engage in the business. This firm had conducted the largest furniture store in the county and in connection with that line are the leading undertakers.

Mr. Jackson married Miss Margaret Lawson of Perth, Scotland, in Delhi, the ceremony being performed by Rev. Charles D. Smyth, who was the predecessor of the late Rev. James H. Robinson. To Mr. and Mrs. Jackson were born one daughter, Mary, the wife of Willard R. Mason, the junior member of the firm, and with whom Mr. Jackson had made his home. He is also survived by a granddaughter, Helen, the wife of Frederick Arundel of New York city, and one great granddaughter, Edith Arundel.

The funeral will be held Tuesday afternoon at 2 o'clock from the late residence, Rev. Stuart M. Robinson of Lockport, in the absence of his father, Rev. W. Cortland Robinson, will have charge of the service. The burial will be in Woodland cemetery. Mr. Jackson was one of the most respected residents of the village and

his death will be deeply regretted by many friends and acquaintances.

Plan Delightful Trip.

Miss Margaret Schier of this village, teacher in the Walton High school, has a delightful vacation trip planned for the summer. She will visit the British Isles and places of interest on the continent of Europe and also to see the Passion Play at Oberammergau. She will go in company with Mrs. Francis Breches of Perth Amboy, N. J., who is her sister. There are also Miss Ruth Woodruff, a regular summer resident of Delhi. Another young lady from Perth Amboy is to be in the party.

Former Delhi Man.

Robert H. Neal, for many years a resident of this village, but living in Stamford the past few years, where he is in State road maintenance work, is suffering from blood poisoning in one of his fingers.

Rev. Stewart Robinson Here.

Rev. Stewart Robinson of Lockport preached in the First Presbyterian church here Sunday morning and evening, in exchange with his father, Rev. W. C. Robinson, D. D., who will on his return from Lockport go to Wilmington, Del., where he will preach on Sunday, May 7th. Dr. Robinson expects to go to Princeton while away to attend an anniversary at Princeton seminary.

Owns Three Houses.

Charles S. Wilcox has bought the residence of John P. Mace on upper Main street, thus becoming the owner of three houses in this village. He will use it as a tenant house.

Visit Daughter in Ohio.

Mr. and Mrs. H. S. Graham have returned from Oberlin, Ohio, where they spent a week with their daughter, Miss Grace, a student at Oberlin Conservatory of Music. They found much warmer weather in Ohio than here.

Leonard Taken to Auburn.

Sheriff Arbuckle left Friday morning, having in custody Perry Leonard of Guilford, recently sentenced to prison. Leonard was lodged within the walls of the state institution. The man was sentenced to a term of not more than five years and not less than two years and six months.

\$127,000 Lake Delaware Church. Jacob & Young, a New York firm, are the contractors who have taken work of building the new church, rectory and parish house at Lake Delaware. It is expected the work will be commenced immediately. The estimated expense is \$127,000.

William Moody Married.

William W. Moody, son of Mr. and Mrs. Robert Moody of Frasers Station, was married on Saturday, April 22, at Wilmington, Del., to Miss Anna McGordy. The young couple will reside in Philadelphia, where Mr. Moody has a position. Mrs. Robert Moody attended the wedding.

Miss Carter Returns Home.

Miss Anna Carter, who spent the winter at Southern Pines, N. C., has returned to her home in rooms in Marshall Roberts' house.

Mr. Trylone Moves.

Jacob Trylone, a well known creamery man who has been located at Hamden for a number of years, has lately gone to Margaretville, where he has a position with the Maple Creek Creamery as superintendent. Mr. Trylone has bought the J. H. Hitt house at Margaretville and will move his family there from Hamden at the close of the school year.

Death of Mrs. Julia Armstrong.

Mrs. Julia Armstrong, aged 62 years, died in Binghamton April 20th. She is remembered by many Delhi people, having been a resident here for a long time. She is survived by one son, Arthur D. Armstrong of Westfield, N. J. Her many friends in this village will grieve to learn of her death.

Mrs. Paul Suffers Fall.

Mrs. E. W. Paul had a bad fall Wednesday as she was going into her woodhouse after wood. She slipped and struck her side against a rib, sustaining a fracture called and made her comfortable as possible. Her brother, William Tyrell, had been laid up with grip at her home for some time, so the accident is doubly unfortunate at this time, as both are now ill in bed.

An Auto Collision.

A collision of the Essex car owned by W. T. Neale, the Walton florist, with the Ford owned and driven by Eric Bullock, a Federal Board student at the State Agricultural school here, occurred on the Watonga Falls State road just above Watonga Falls Wednesday. Both cars were badly damaged and that no one was seriously hurt seems almost a miracle.

Donald M. Grant at Delhi.

In referring to the term of county court at Delhi last week, the Delaware Express has the following to say of Oneonta's young police attorney.

"Not of the least interest in the term was the disclosure of the fact that another trial lawyer of ability is appearing on the horizon. Donald M. Grant, who in the main conducted the Elliott defense, won his first case in a major court, and conducted it with the assurance of a seasoned veteran. Against no mean antagonist in the District Attorney, with no certainty in the issue at the start, he made the most of every point of law, and maintained an aggressiveness reminiscent of Charles R. O'Connor at his best, while his opening and summing up were masterly. There is something in Hobart air that produces good trial lawyers—and we venture the prediction that not the least of these is just beginning his career at the bar."

Discontinues Sunday Edition.

The Binghamton Morning Sun yesterday announced that the Sunday edition has proven unprofitable and that its publication will be discontinued. The expense of production of a newspaper has risen so rapidly of late that the effort to put on a new enterprise on its feet is accompanied by such financial loss for an indefinite period that the decision of the Sun is not surprising.

Needless Risks With Your Health?

Is that a queer question?

Then many people are doing a queer thing
—and often it turns out to be a serious thing.The Federal Bureau of Education says in
its rules for the health of school children that
children should not drink coffee or tea.This rule is based on the well-
known fact that the drug element
in coffee and tea whips up
the nerves, and that serious ills
often follow.If it's a good rule for children
to keep away from the harm of
nerve-stimulation, isn't it a good
rule for everybody?

Think it over.

Granted that your body may
stand more, can your judgment
afford to risk more? Any doctorcan tell you what coffee and tea
often do to the health of adults
as well as children.There's no sacrifice in being
safe. Postum is a delightful,

CLEANING UP THE HOOKWORM.

A few years ago the Rockefeller Foundation astonished the world by the announcement that the backwardness of the tropics and subtropics was due mainly to an unsuspected disease. Those who appeared to be incurably sluggish were not necessarily suffering from a defect of character or debilitation due to climate, but were infested with a minute parasite called the "hookworm," which sapped their energy. If the hookworm could be abolished, it seemed natural to expect that there would result a revival of energy enabling vast, spiritless populations to compete with the people of the temperate zone.

Various remedies have been tried or suggested, but apparently no simple, sure, safe specific for the hookworm disease was found. Now the United States Department of Agriculture announces the discovery, by its own experts, that carbon tetrachloride is completely effective against hookworm in animals, and that numerous trials seem to prove its efficiency for human beings. Experiments are going forward in the southern states, on the lower Pacific coast, in India, Ceylon, Dutch Guiana, the Fiji Islands and Brazil. It has been found in the Fiji Islands that 99 per cent of the parasites are removed by one dose, without bad effects. Other drugs have usually been found dangerous.

Another fact which commends this treatment is the extreme cheapness of carbon tetrachloride. It is a chemical commonly used for cleaning clothing. If it will really clean the hookworm out of the human race, there will be a boon conferred that is unsurpassed by any of the wonders of modern science.

In the regions where there have never been hookworms, there are none the less instances of extreme lassitude which by the unthinking and perhaps ungenerous have been diagnosed as plain laziness. It is a single dose of carbon tetrachloride puts spring into the muscles of the erstwhile indolent Fiji islander, why should its administration not be made compulsory in regions less tropic?

FRENCH POSITION AT GENOA.

The French Premier last week made some statements as to France's position regarding the Genoa conference, which should be carefully considered because they justify the position taken by France. The Premier called attention to the fact that France took precautions that the program of the conference be clearly defined beforehand and that it touched in particular none of the problems connected with reparations or disarmament. A memorandum was laid down at the time, of the principles on which the co-operation of France would be based, and the Premier made it clear that the French representatives would remain at Genoa only on the condition of making no change in these principles, either as referring to Germany or Soviet Russia, and of keeping strictly to the lines of the original French memorandum. The attitude of France and her attendance at the conference were accepted on those lines and the program arranged accordingly. It is perfectly proper for France to insist that this original program shall be strictly carried out. This is only a matter of justice.

On the question of reparations M. Poincaré is equally logical. He stands upon the terms accorded by the Versailles treaty, namely, that Germany remains at the appointed time and the Reparations committee records deliberate failure on the part of Germany, then the Allies will have the right and the duty to take measures to protect their interests. It would be indefinitely better, he says, for these measures to be taken by all in common, but according to the terms of the treaty, if necessary, they can be taken respectively by each of the nations concerned, and Germany is obliged, by the terms of the treaty, not to consider them as acts of war. He concludes: "We ardently desire to maintain on this capital occasion the co-operation of all the Allies; but we will defend in full independence the French cause and will let fall none of the weapons the treaty gives us. We will not allow our unhappy country to succumb under the weight of reparations beside a Germany that declines to make the effort necessary to discharge her debt."

HIGHWAY APPOINTMENTS.

Division Engineers at Work Putting State Highways in Condition.

Conditioning of state, county and Federal aid roads has been started in 57 counties of the state and Highway Commissioner Herbert S. Sisson has appointed more than 2,000 patrolmen, patrol helpers and truck drivers to have charge of the work. Division engineers have been instructed to have every mile of road available for public work as soon as possible. The Otsego county appointments are as follows:

Foreman—Dewitt Duell.
Patrolmen with light trucks—C. W. Carpenter, William Jones, Victor Hebe, Fred Knapp, George Walker, Samuel Swackhammer, Elbert Warner.

Patrolmen with horse and cart—Emory S. Alger, Baker Waterman, John Shrubshell.

Patrol helpers—Frank Foucher, Fred Palmatus, Fred Baum, Arthur Root, Ernest Root, Paul Boobe, Smith Edgson, John Nolda, Charles Barlow, C. J. Bennett, Albert Warner. Truck drivers—Ward Squire, E. N. Studor.

COMMENTS OF THE PRESS

Russia Tries German Tactics.

Russia, admitted to the Genoa conference by the grace of the desire of Great Britain's premier to give surface indications of fairness, has been ungrateful enough to make "demands" as to what must or must not be done.

The repudiation by the Soviet emissaries of the Russian debt and the insistence that the Moscow government be recognized as an equal of the Allies is a piece of rank insolence. It may win out, because Poincaré at Genoa, like Briand at Washington, has waved the red flag of militarism. Russian representatives interpret the threat of France to take military action if Germany delays reparations payments as the opening wedge of a break between France and Great Britain. Their cockiness increases as conditions become more confused at Genoa.

Because Russia has been recognized by Germany as an equal the Soviet government may win its ends with Great Britain and France and Italy. The fear that Germany will grab all the anticipated Russian trade may force Allied capitulation. — [Watertown Standard.]

Traffic Dangers.

An accident to a member of the Connecticut state police has aroused Hartford authorities to the need of traffic regulation, with protection of pedestrians, at a dangerous street intersection in that city. But was not the necessary equally apparent before the unfortunate illustration? American cities have all permitted serious accidents before providing the needed protection. — [Springfield Republican.]

The French Army.

The French army's maintenance cost is low. It is at present \$165,000,000—much less than our own army budget. After 1925 the annual cost will be only \$110,000,000. — [New York Tribune.]

Trick Labels Outlawed.

Manufacturers must be correct in the use of language, or incur the displeasure of the Federal Trade Commission. At least they must be accurate insofar as the use of labels on their goods are concerned. This is the effect of the decision of the supreme court, which finds that the use of such words as "natural wool" and "Australian wool" on underwear that contains cotton is unfair wage competition. — [Utica Observer.]

His Dollar With Interest.

A fisherman found \$10,000 on the banks of the Potomac. Maybe that's the dollar George threw across, with interest. — [Gloversville Leader.]

The Community Interest.

The community spirit is needed, where all are working for the community and doing his or her part in fostering its development. — [Hudson Register.]

What "Pep" Is.

If "pep" means anything, it is a synonym of "vigor." Then why not use that latter word which is much better fit to express the meaning? — [Albany Journal.]

Love in Touring Car.

Making love in a touring car may be delightful, but really it has no advantages over the old-fashioned hammock on the side porch of a generation ago. — [Jamestown Journal.]

Erin's Real Grievance.

Ireland's real grievance at England seems to be that she is trying to deprive the Irish people of everything they have had to fight about. — [New York Tribune.]

A Believer in Democracy.

It would appear on the surface of Mr. Gompers' statement yesterday that he believed that organized labor should be outside the jurisdiction of the courts. And yet Mr. Gompers claims to be a believer in democracy. — [Troy Times.]

Tit for Tat.

A West Side physician was passing the marble emporium of a friend and called out to him through the open door: "Good morning, Frank! Hard at work, I see. You finish your gravestone as far as 'in memory of' and then you wait, I suppose, to see who wants a monument next?" "Why, yes, doctor," replied the marble dealer, "unless someone is sick and you are doctoring him, and then I keep right on." — [C. D. F. in Rochester Democrat and Chronicle.]

Wanted to Know.

"What are you reading, Charley?" "It's a book called 'Child Training' that I borrowed from Mrs. Jones," returned the young son. "Do you find it amusing?" laughed his mother. "I'm not reading it for that. I merely wanted to see if I had been brought up properly." — [Country Gentleman.]

JUSTICE KELLOGG TO SPEAK.

To Address National Society of New England Women at Hotel Astor.

Hon. A. L. Kellogg leaves this evening for Binghamton, where tomorrow he holds a motion term of the supreme court. From Binghamton he goes to New York city, where on Wednesday evening he is to be one of the speakers at the annual dinner of the ninth annual congress of the National Society of New England Women, at Hotel Astor. The congress continues for three days at that hotel and delegates from some 26 colonies are to be in attendance. There will be a theatre party the following night.

Good Record of C-T-R Company.

Stockholders of the Computing-Tabulating-Recording Company, of whom there are a considerable number in Oneonta and vicinity, will be interested in the report of President T. J. Watson for the first three months of the present year, which has just been issued. The report shows net earnings of the company and its subsidiaries for January to have been \$73,330.54; for February \$126,997.66, and for March \$197,545.84. The total for the three months was \$407,874.04, which is \$109,158.96 more than in the same period of the previous year. The above statement will no doubt be a source of satisfaction to all having stock in the company.

N. Y. U. QUITS I. A. A.

New York, April 30.—The compulsory withdrawal of New York University from the Middle Atlantic states intercollegiate athletic association, because the university enrollment exceeded the 1,000 limit stipulated in the association's constitution, was announced today. More than 13,000 students are enrolled at the university.

THE ACT IS STARTING OUT UNDER DIFFICULTIES

FRAUD CHARGE SUSTAINED

JUSTICE KELLOGG REDUCES MORTGAGE GIVEN ON FARM BROOME COUNTY.

Court Uses Strong Language in Opinion on the Case of Elwood R. and Nellie C. Goins Against Seneca J. Atwood, a Broome County Action—Mortgage Reduced to \$7,000—Much Misrepresentation by Defendant.

Farmers and other owners of real estate will be interested in the decision handed down on Saturday by Justice Kellogg in the case of Elwood R. and Nellie C. Goins against Seneca J. Atwood, though the case is one from Broome county, the nature of the action and the strong language used by the court in the opinion written makes it of special interest.

The court in the opinion says: "In September, 1920, the plaintiffs were the owners of a farm in the town of Lisle, Broome county, with stock and tools thereon, worth, over incumbrances about \$6,350."

"On the 25th day of September, 1920, they were in some way induced to exchange this farm and property with the defendant for a farm, stock and implements in the town of Fenton, worth about the sum of \$6,500 and to give him in addition to their farm with stock and tools, a bond and mortgage and chattel mortgage for the sum of \$7,150."

The defendant shortly after sold the farm he had received from the plaintiffs for \$7,000. A re-conveyance of the farm and property the defendant received from the plaintiffs is impossible.

"The inadequacy of consideration which the plaintiffs received is of such probative force as to lead the court to the inevitable conclusion that the defendant, by false representations made to the plaintiffs with respect to his property, took undue advantage of the plaintiffs, indeed the inadequacy of consideration is so great as to shock the conscience; and is, in itself, proof of fraud without other evidence."

Briefly summarized the opinion further holds that there was misrepresentation relative to the timber on the farm the Goins received, the defendant representing that there was sawing timber to the value of \$4,000, whereas it did not exceed \$200; that there was misrepresentation relative to the cows, it being stated that they were pure bred Holstein, eligible for registration as such, whereas they were not so at all; that there was misrepresentation relative to the distance to the schoolhouse, that there was misrepresentation relative to the hay and grain and the sufficiency of feed; that there was misrepresentation relative to the milk contract; that there was misrepresentation relative to the team on the farm received, it being alleged that they were young and sound, whereas they were old and lame.

The court directs: "For the rea-

sons stated, the plaintiffs are entitled to have the mortgages given by them to the defendant reduced in the sum of \$7,000 and that sum endorsed thereon, with all interest due on such sum from the date of their inception down to the present time with costs and disbursements of this action."

Jenkins, Deyo & Hitchcock appeared for the plaintiffs and Harry J. Hennessey for the defendant.

Other Cases of Interest.

Justice Kellogg also heard the evidence in the divorce proceeding instituted by Warren Dunshee against Beatrice Dunshee. The decree was granted. Claude V. Smith was the attorney for the plaintiff.

In the divorce action of Hazel Esther Coats against William C. Coats an order was granted submitting Hon. Charles C. Fleisch of Unadilla as plaintiff's attorney in place of Hon. W. H. Johnson, deceased.

Proof was also taken in the divorce action brought by Ella R. Porter of Bainbridge against Glenn C. Porter, and the decree was granted. Homer D. Owens was the attorney for the plaintiff.

W. J. Neish of Walton was appointed referee to sell in the foreclosure action instituted by Willis W. Figary against Horace Allen et al.

Upon the application of Hon. N. P. Willis of Cooperstown, Myron M. Crandall of West Winfield was appointed guardian ad litem for Andrew J. and Katherine J. Carson, infant defendants in the action brought by Michael Carson against William and Mary Carson, Andrew J. and Katherine J. Carson, infants and Mary C. Carson individually and as administratrix of John J. Carson deceased.

"PIGS IS PIGS."

Their Census Added to Multitudinous Duties of Rural Carriers.

In compliance with latest orders from the postmaster general, Postmaster Sherman will direct all rural carriers going out from the Oneonta post office to conduct a census of brood sows on their routes during the first ten days of May.

The purpose of the report is to aid the department of agriculture in estimating the number of brood sows on farms and the probable production of hams, leaf lard, side pork, bacon, etc., in 1922, as compared with 1921. According to the orders from Washington, carriers from Oneonta and all other offices in the country, are supposed to question the farmers and fill in the blanks which have come from the department. Whether a later census will determine the average number of pigs per litter is not announced.

Reports are desired from 12 farms on each route.

OTSEGO HEALTH CONDITIONS

Miss Nina V. Short Submits Result of Detailed Survey Made Under Direction of League of Women Voters.

A detailed survey of health conditions in schools in Otsego county, organized by the League of Women Voters and made under the personal direction of Miss Nina V. Short of Oneonta, is a direct challenge to parents in the county.

This survey, part of a state-wide investigation of equipment and facilities for safe-guarding the health of school children, proves conclusively the need of an intelligent and active interest in the town and rural schools on the part of parents and taxpayers in the county and the necessity of their cooperation with teachers and school boards or trustees on health measures. It shows also the difficulties of obtaining adequate equipment and proper conditions in rural schools having less than ten pupils.

In making the report of their survey, the New York State League of Women Voters has announced that the facts and figures have been collected by a group of conscientious volunteer workers with the aim of securing as reliable information as possible in order to bring home to taxpayers and parents the need of safe-guarding the health of the children of the state. While mistakes have probably been made, in gathering these figures, they feel that the sincerity of their effort outweighs any possible errors and that the picture as a whole is an accurate one.

Though medical examination of school children is required by law, no penalty is provided for failure to comply and all details are left to school boards and trustees. The value of such an examination, when thorough, according to experts on child welfare, is that they do much in stopping preventable disease and disabilities that might wreck the health of the individual in later life.

There are 265 schools in the county. Outside the city of Oneonta the schools are grouped into 6 Superintendency districts. A general survey was made of the rural schools and the made of the city schools. The health conditions were studied under 7 headings as follows:

Medical Inspection.

In classifying an examination as satisfactory we considered that 10 minutes should be given to each child, that examination of the heart and lungs should be made with a stethoscope, that eye and ear tests should be included in the general inspection. In Otsego county, however, it is customary that records should be kept. Usually this examination is cursory—a stethoscope is not used, and the eye and ear tests are not made. None of the schools report that they have the services of a nurse who visits the class room as often as once a month. A nurse is employed for the schools in Oneonta but there is none in the other districts. Medical, surgical and dental clinics are available in the city, but only a small per cent. receive treatment after the medical inspection has been made.

Health Instruction.

Some health instruction is given along with the physiology classes. The school nurse in Oneonta gives special instruction in health and exhibits are held. In the county the Modern Health Crusade has been organized.

Physical Training.

There are five instructors in physical education in the county, one of these holding a temporary license. In Otsego county the physical training is given by the regular teacher, who receives her instructions from the physical director. Very little systematic training is given in the rural schools, usually only a few exercises during the school hours.

Condition of Buildings.

In Otsego the Board of Education make a sanitary survey of the schools, their equipment and maintenance each year. There is some over-crowding, and not always is the temperature well regulated. On the whole, the conditions are fair. In the rural schools we have mostly outdoor toilets, in poor condition. There also is some over-crowding. The temperature is poorly regulated, as very few thermometers are found in the class rooms. The desks are not always adjusted to the size of the child, and often we have the double desks, that is, two children in one seat.

Special Classes.

There are no special classes in the county. The schools are unable to make any provision for the backward children, or the tuberculous ones who need open air classes.

Hot Lunches.

In the city of Otsego there are no arrangements for providing either a hot lunch or a single hot dish or drink. A small percentage of the rural schools make some such provision. In the majority of cases the children who cannot go home are dependent upon cold lunches that they carry with them.

Use and Supervision of Playtime.

In the rural schools there are playgrounds usually connected with the schools, but there is no equipment and only a few are large enough for baseball. Neither the teachers nor the community encourage school entertainments. In the city of Otsego we have large, well equipped playgrounds in connection with the schools, and entertainments are encouraged, also supervised.

Gasoline Price Advanced.

We have been compelled to advance the price of gasoline one cent to 28 cents, the wholesalers having advanced the price on us a week ago, our customers being protected for the time mentioned. We are now selling Purely Ice Cream and solicit the patronage of the public. D. E. Robinson. Adv 11

FIRST WARD CLEANS UP TODAY

Wagon Will Make Round of First Ward Today Collecting Rubbish—Outlets in Line With Spirit of Clean-Up Week.

Today is May first and the first day of Clean-Up Week, and this fact is of unusual import to residents of the First ward, who will have first turn at having their rubbish carted away free of charge by the wagon furnished by the city, which will make its first rounds collecting rubbish placed along the curb in that ward, beginning at 8 o'clock this morning.

Indisputable evidence was furnished Saturday that citizens throughout Oneonta are falling in line with the spirit of Clean-Up Week, and many a day, calling attention to property and physical appearance of a few hours' labor spent on the lawn and around the house.

Twelve Boy Scouts, under the direction of C. J. VanDeusen and L. D. Brown of The Boosters' committee, distributed circulars to householders, calling their attention to Clean-Up Week and the need for co-operation of citizens to make Oneonta cleaner and more attractive city now that spring is underway. Boy Scouts will distribute the same letters from the Clean-Up Week committee in the other wards this week.

Fix-up, paint-up, and other "ups" of Clean-Up Week campaign, including the planting of flowers, trimming of shrubbery, and other odd jobs around the home, are being quite generally followed out by residents of the various wards, and it is an accepted anticipation that Oneonta's boasted asset of attractive homes will have a new and higher standard of cleanliness as a result of the co-operative effort being extended by citizens during the Clean-Up Week campaign.

ONEONTA CONSERVATION CLUB

Has Planted 17,500 Seedlings This Spring—Members Will Meet Directors This Evening to Discuss Further Plans.

The directors of the Oneonta Conservation club will meet members of the club at the Windsor hotel at 7:30 o'clock this evening to ascertain whether the club desires to plant more than the scheduled 25,000 trees on the preserve near Cooperstown Junction this spring, and also to consider the plans of the agricultural, bridge and fish committees.

So far this spring the club has planted 17,500 white pine and 2,500 Norway spruce seedlings. There are now on hand 2,500 spruce and 5,000 cedars, which will be planted within the next few days and probably before some who wish to help will have the opportunity. By means of a temporary experimental dam the fish committee has proved that a beautiful fish of clear spring water can be maintained on the club grounds by acquiring from Isaac Cross the privilege of flooding a few rods of his pasture land.

TOURING CAR DITCHED

Leo Mills of Schenectady Had Narrow Escape from Injury.

Shortly before midnight Saturday night while returning from his car to his home, Leo Mills of Schenectady lost control of his Studebaker touring car while in the highway near the Universalist church at Cooperstown Junction and it ran into the ditch and crashed against a concrete culvert bending the frame on both sides at the front badly and doing other damage to the car, the car turning over on its side.

Mr. Mills was the sole occupant of the car according to the Star's informant and he escaped with only slight bruises, though the car was evidently moving at a good pace. The car was removed to a Schenectady garage yesterday afternoon for repairs.

Sales By the Square Deal Agency.

Catherine Cassidy of 5 Parish avenue has sold her place to James Lynch of the Otsego and Delaware Telephone company. Possession May 15.

R. Munson of 4 Rose avenue has sold his place to Thuron VanDeusen of Cooperstown Junction. Possession has been given.

Mrs. Mable Chamberlain has purchased of A. R. Silliman his house at 20 West End avenue and will occupy the same.

Worth While Waiting For.

An event that is being eagerly looked forward to is the American Legion dance to be held in the state armory on the evening of Thursday, May 11. The ex-service men have secured Zita's orchestra, including the famous leader himself, to furnish the syncopation, and are sparing no effort to make the dance a success.

Exhibition at the Normal.

There will be an exhibition of oil landscape paintings, pencil and pen and ink drawings in the art room at the Normal school Tuesday and Wednesday of this week. These are the work of Frank G. Sanford, formerly of the Normal school faculty. The exhibit will be open to all free, from 9 to 12 and 1 to 4 p. m.

Camp Dates Changed.

The dates for the stay in camp at Peckskill of Company G of this city has been changed from July to the second and third week of August, according to announcement received recently by Captain Baker.

Notice.

All Odd Fellows are requested to meet at the I. O. O. F. temple at 1:30 p. m. today, to attend the funeral of Lewis Vrooman. Wear white gloves and badges. Those who have cars are requested to bring them for use of members. Order from Noble Grand. Adv 11

Clean Up, Paint Up.

COMMISSIONED MAJOR

Dr. W. S. Cooke of this City Will Command Ambulance Unit in 163rd Medical Regiment—Unit to Have Headquarters Here.

Dr. W. S. Cooke of 87 Chestnut street has been commissioned a major in the medical reserve corps and assigned to the command of an ambulance unit in the 163rd Medical regiment, 98 Reserve division, according to orders just received by him. The orders further state that the ambulance unit will have its headquarters in Oneonta. The headquarters of the 163rd regiment are in Ithaca.

The choice of Dr. Cooke for this important post in the reserve army is the result of his excellent service during the World war, both in this country and overseas. Entering the medical corps with the rank of first lieutenant but two months after war was declared, Dr. Cooke served nearly two years, being discharged in March, 1919, with the rank of major. His service in this country was at Camp Syracuse, Rockefeller Institute in New York city, and a southern training camp. Dr. Cooke saw a year of service in France, first in evacuation hospitals near the front lines and later in base hospitals.

BRACE OF FIRE ALARMS

Truck Makes Useless Run to Academy Street—Householders Carelessness Causes Forest Fire Back of Chestnut Street.

An alarm turned in from the box in front of the High school building at 11:36 o'clock Saturday morning called the firemen to No. 17 Academy street where they were treated to the spectacle of seeing a bonfire blazing merrily in the backyard. A person working across the street had thought that the flames came from the dwelling and had turned in the alarm.

Before the combination truck had returned to the station the small truck was called to extinguish a forest fire on the hill back of Chestnut street. Blazing papers from a bonfire in back of a residence on Chestnut street had blown into the woods and started the fire, which proved a tough one to fight and kept the firemen and a corps of volunteers busy until after four o'clock.

To Attend Conference.

Representatives of the city administration will attend the thirteenth annual New York State Conference of Mayors and Other City Officers, the 15th annual conference of the New York State Association of City Clerks and the 16th annual convention of the New York State Association of Fire Chiefs, to be held simultaneously June 2, 6 and 7 at Poughkeepsie. Elaborate programs are being arranged for the entertainment of the visitors.

Strawberry Shortcake Social.

The boys of W. H. Hickok's class of the First Methodist Sunday school are to have a strawberry shortcake social with music and games at the parlors of the church on Tuesday evening, and the patronage of the public is invited.

For sale—Dining room set. Extra fine furniture, as good as new, a bargain for quick sale. Inquire at Winney's Lunch room. Broad street. Adv 31

Lawn mowers and garden tools at Fred M. Baker's hardware. adv 21

HATHAWAY'S NEW ONEONTA THEATRE TODAY 2:30-7:30.

A MUCH RESPECTED WOMAN.

Mrs. William Fagan Dies Friday Night—Funeral This Morning.

Mrs. William Fagan passed away at her home at 17 Academy street at 11:20 Friday evening following a serious illness of three months' duration. The cause of death was heart failure brought on by weakness of the heart, a disease which she had suffered many years.

Mrs. Fagan was born at Patterson, N. J., April 10, 1880, the daughter of John and Anne Brennan, it-long residents of Patterson. She was married to William Fagan of Norwich, May 1, 1906, at the village of Norwich. The family resided at Norwich for many years, removing to Oneonta about eight years ago.

She is survived by the husband above named and by one daughter, Dorothy, who have the deepest sympathy of many sincere friends. She is also survived by one brother, M. J. Brennan and a number of nephews and nieces. One of her nieces is Sister Anastasia, now missioned at Alleghany hospital at Cumberland, Md.

During her residence in this city the deceased had many friends and was well liked by all who knew her. Her illness was of long duration and she has the sympathy of a wide circle of acquaintances, who feel her loss very deeply.

The deceased was a member of the Catholic Daughters of St. Mary's Roman Catholic church of this city.

Father Noonan of St. Mary's Roman Catholic church will celebrate requiem high mass at St. Mary's Monday morning at 9:30. The body will then be taken to Norwich where requiem high mass will be celebrated by Father Joseph Tierney of St. Paul's Roman Catholic church of Norwich at St. Paul's. Burial will be in St. Paul's cemetery at Norwich.

Label Suits on Next Week.

Among the cases on the calendar for the term of supreme court opening at Cooperstown on Monday next with Justice Theodore R. Tutthill on the bench are the civil libel suits of Sheldon H. Close and John G. Johnson of this city against the New York Times company. The suits, which are for \$25,000 each, arose out of certain statements published in the New York Times which the plaintiffs contend cast reflections upon their ability and integrity in the defense of George Brame, executed for the murder of Anna VanPatten at Elk Creek on August 18, 1920.

RADIO EXPLAINED

By E. H. Lewis
INSTRUCTOR NEW YORK Y. M. C. A. RADIO SCHOOL

THE EFFECT OF LIGHTNING.

It is quite a rare thing for an antenna to be actually struck by lightning. If such a misfortune should occur, however, there would be nothing to do but rebuild most of the antenna system and perhaps a portion of the house. The antenna is usually connected to the ground either through the receiving instruments, the sending instruments, if any, or some means of lightning protection, such as a switch or an arrester, may be employed. The fire underwriters' rules call for such protection, and it would be well for any who contemplate the installation of apparatus to familiarize themselves with the local regulations. It is not the purpose of this article to deal with regulations covering lightning distance from a receiving station may cause annoyance because of interference with the received signals, music or speech. When lightning flashes occur they are discharges of electricity from one cloud to another or from a cloud to the earth. These discharges produce very great electrical disturbances in the medium called the "ether" and create waves which are radiated just like the radio waves. When the waves so created reach a receiving station there are electrical oscillations created in the antenna, whose frequency is that of the antenna

circuit. It makes little difference in this case to what frequency (or wave length) the antenna is tuned. The lightning discharges affect it just the same if the lightning is close by the noise produced in a telephone ear piece is extremely loud, and it would be a good plan to stay away from the instruments. The sound produced by this kind of "static" or, in fact, by most kinds, is not musical, but harsh and irregular. If the lightning is a considerable distance away the sound created by it in the telephone ear pieces (head telephones) will not be so loud, but will still be harsh and irregular. The approach of a thunderstorm could very nicely be detected while the sky is still clear by listening in with a receiving set.

Lightning or less spectacular electrical discharges in the atmosphere at very considerable distances from the receiving station are responsible, to a large extent, for a large amount of the "static" noticed in the summer months.

The effect of ordinary static in a receiver may be partly reduced by using what is known as a "loop antenna" sometimes by indoor antennae and usually even by reducing the size of an outdoor antenna. Static cannot, however, be entirely eliminated in this manner without also eliminating the desired signals.

A Herald-Sun Feature.

BORDEN'S NOT RESTRAINED

Court Holds Concern Need Not Purchase Milk of Non-Poolers Unless Action Is Result of a Conspiracy, Says Justice Crouch.

Justice Leonard C. Crouch has handed down decisions in the motions which were argued before him to vacate injunctions secured by 23 non-pooling dairymen in the town of Westmoreland against the Borden's Farm Products Company, Inc. The decision is based on the peculiar language of the injunction which restrained Borden's from refusing to purchase plaintiffs' milk unless they should become members of the Dairymen's League Co-Operative Association, Inc.

The opinion holds that the Borden company is not restrained from refusing to purchase the milk if it is acting in good faith and serving only its legitimate interests. It is restrained if it refuses to purchase such milk as a result of a conspiracy with the dairymen's league to coerce the plaintiffs and compel them to join the league.

On the application to vacate the injunction Borden's said that it refused to receive the plaintiffs' milk not because they had not joined the Dairymen's league, but because Borden's had already purchased all the milk it required for the month of April from the Dairymen's league.

Justice Crouch holds that under the interpretation he gives to the restraining order the injunction should be vacated until the facts can be determined either by a reference or a trial of the actions, and if the plaintiffs tender their milk to Borden's it may refuse to accept it if it can justify such refusal as made in good faith.

If it cannot justify its refusal on that ground, then it may not refuse the milk, he holds.

Counsel for Borden's stated that in continuing the temporary injunction Justice Crouch made it clear that the Borden company is not required to purchase milk from the plaintiffs unless the refusal is the result of an illegal conspiracy with the Dairymen's league, under such circumstances it is understood that Borden's will purchase its milk supply only from such sources as it sees fit.

Funeral of Mrs. Henry Shuttles.

The funeral for Mrs. Henry Shuttles was held Friday at 12:30 p. m. at the Elm Park Methodist Episcopal church, a large circle of sorrowing relatives and friends being in attendance to pay their last respects to one whom they had loved so long. Rev. W. C. Dodge, pastor of the church, and Rev. J. C. Johnson, former pastor, officiated. Two favorite hymns of the deceased, "Jesus Lover of My Soul" and "Shall We Meet Beyond the River?" were sung by the choir. There was a profusion of beautiful flowers from relatives and neighbors and set pieces from the Ladies' Aid society and the Loyal Workers' class of the Elm Park church, of which organization she was a member. Interment was at the Plains cemetery, the bearers being S. A. Shepherd, J. W. Hayner, Delbert Moak, Henry Peet, W. D. Butler and Herbert Church.

Those in attendance from out of the city included Mr. and Mrs. C. H. Budine, Rupert Budine, Lewis Budine, Edith Budine Walters, Mrs. Earl Robinson, Mr. and Mrs. Frank Burnside and son, Lambert, Mr. and Mrs. Christopher Crandall, Wells Bridge; Mrs. Lewis Gilbert, Raymond Gilbert, Hettie Gilbert, Mr. and Mrs. Henry Carpenter, Gilbertville; Mr. and Mrs. James Davis, Arthur Davis, Mrs. Hatfield Davis, Sand Hill; Mr. and Mrs. William Newman, Bainbridge; Mrs. William Daniels, Mr. and Mrs. W. Ackley, Milford.

To Attend Several Functions.

Mrs. Abraham L. Kellogg, secretary of the New York State Federation of Women's Clubs, leaves this afternoon for New York city, where during the week she will attend numerous social functions in connection with Women's club and other women's organizations of the metropolis, to which she has been invited. The present week marks the close of club activities quite largely for the season and many events are planned. Included among them is the 58th annual convention of the New York City Federation of Women's Clubs, to be held on Friday at Hotel Astor.

Card of Thanks.

We desire to express our heartfelt thanks to relatives and friends and neighbors for the many acts of kindness shown us during our recent bereavement and also for the many beautiful floral offerings, especially those from the L. O. O. M. and I. O. O. F. and H. We wish to thank Rev. J. C. Johnson for his comforting words, Mr. Bookhout for the manner in which he conducted the funeral, and the friends who loaned autos.

Card of Thanks.

We desire to thank our friends and neighbors for the kindness, assistance and sympathy shown us during the sickness and death of our loved one. Also for the great abundance of beautiful flowers from friends, relatives, Ladies' Aid and the O. E. S., and wish everyone to know that we are sincerely grateful.

Mr. and Mrs. M. J. Tobey,
M. N. Tobey,
L. H. Betts.

Personal

E. W. Elmore has returned from a business trip to Buffalo.

Miss Zulu Whitcomb of Worcester is visiting Oneonta relatives.

Mrs. A. A. Coombes of Luther street spent Saturday in Binghamton.

Miss Lena LaPine was a visitor with relatives in Unadilla yesterday.

N. B. Woodruff of Sidney was a business visitor in the city on Saturday.

Miss Edith Turk of Sidney was a guest Sunday of Mrs. S. P. Smith, 26 Center street.

Mrs. W. F. Rowland of 27 Main street was the guest yesterday of relatives in Milford.

Mrs. J. W. Nolan and son, Jack, of 37 Grand street, spent the week-end with friends at Watervliet.

Mr. and Mrs. W. J. Elliott have returned to Oneonta, after spending some time in Orlando, Fla.

J. C. Scribner of Hornell, who had been in Oneonta for a few days, returned home last evening.

Mr. and Mrs. John Bell passed the weekend at the home of Mr. and Mrs. Harry D. Arbuckle in Unadilla.

Mr. and Mrs. A. G. Jones and children of 25 West street were guests Saturday of friends in Albany.

Mr. and Mrs. J. M. Graham have returned from St. Cloud and Jacksonville, Fla., where they spent the winter.

Mr. and Mrs. Melvin Passer of 27 Brookside are spending a few days with friends in Albany and New York city.

Miss Doris Patrick, student of the Oneonta State Normal school, spent the week end at her home in Elk Creek.

Mrs. Ardella Lewis and Mrs. B. R. Simpkins of this city spent Saturday with Mrs. Jennie Graefield in Schenectady.

Mrs. Jay Dowd of New York city returned home Saturday after a visit with Mr. and Mrs. William O'Dell, 7 Pearl street.

Mr. and Mrs. Harry Knapp and children of 10 Duane street spent the week-end with the former's brother, Leman Knapp.

Mrs. E. L. Brown of Sidney returned to her home after visiting her daughter, Mrs. D. B. Eddy of this city for a few days.

J. Whaley of Oneonta returned to his home Saturday in this city after a few days' stay with his son, Frank J. Whaley, at Albany.

Miss Verna Gage of Worcester spent the week-end with her cousin, Miss Edna Gage of this city, returning home last evening.

Mr. and Mrs. Truman B. Jones of Medford Hills, Mass., arrived in the city yesterday to attend the funeral of the late L. V. Vroman.

Mr. and Mrs. Abram Gillett of 14 Ford avenue returned last evening from a few days' visit with the former's mother at Albany.

Mrs. F. B. Gould of Unadilla, who had been visiting her daughter, Mrs. Earl Haskins of 24 Broad street, returned home last evening.

Miss Helen Waterman of Sayre, Pa., was in the city Saturday on her way home after visiting Neal Robinson of Cooperstown for a few days.

Miss Priscilla Napper of Franklin was in the city Saturday for the purpose of trying the State Civil Service examination for stenographer.

Mrs. Linnie Nickels of Towanda, Pa., was in the city Saturday on her return from a six weeks' stay with Rev. E. C. Petrie of Cooperstown.

Mrs. J. S. Marshall returned Saturday to her home in Cooperstown from Bridgeport, Conn., where she has spent the past seven months.

Mrs. Minnie Greene of Chatham, who had been visiting the Misses Marie and Maude Stringham of 22 Grove street, returned home Saturday.

Mr. and Mrs. J. M. Elwood of Laurens were in the city Saturday on their way to visit Mrs. Elwood's brother at Wells Bridge for a few days.

Mrs. M. W. Fisher of Nineveh was in the city Saturday on her return from Cooperstown, where she had been visiting D. A. Avery for two weeks.

Mrs. Elizabeth Ives of Afton, was in the city Saturday afternoon on her way to Milford where she expects to reside with her daughter, Mrs. Ida Saulsbury.

Mrs. Curtis Baldwin of Utica was in Oneonta yesterday on her way to East Worcester, where for some time she will be a guest of her sister, Mrs. J. O. VanBuren.

Mr. L. G. Barnes and daughter, Bernice, left Friday evening for Indiana and Colorado, where they will spend about a month and a half visiting relatives.

Mrs. Charles Neuser, who had been visiting her daughter, Mrs. Charles Armstrong of 18 1/2 Division street, returned last evening to her home in Carbondale, Pa.

Mr. and Mrs. Frank Lane of Binghamton, who had been visiting at the home of Charles Banks in North Franklin, were in Oneonta last evening on their way home.

Mrs. Henry J. Frommshagen of this city left last evening for Pittsburgh, Pa., where for the present she will reside with her son, Rev. Fred C. Frommshagen, of that city.

Mrs. Martin Fisher, for the past 9 months a resident of Susquehanna, was in the city Saturday on her way to Milford to spend the summer with her daughter, Mrs. Frank Manser.

Captain Louis M. Baker and Lieut. J. F. Whitney of Company G were in Binghamton on Saturday evening in attendance at an officers' school conducted for National guardsmen.

Pierce C. Bayne of Salamanca and Mr. and Mrs. Coleman Chesbro of Schenectady are guests of Mrs. Lewis Vrooman, 42 Grove street, being called to this city by the death of Mr. Vrooman.

Miss Florence Barnes, who ten days ago was called to her home in Oxford by the critical illness of her mother, returned to Oneonta yesterday to resume her studies at the Normal school.

Mrs. S. M. Reid of 37 Cherry street left last night for Altamont, where she was called by the death after a long illness of a sister, Mrs. Charles Jones. The funeral services will be held Tuesday.

Mr. and Mrs. J. W. Westfall of 1 Park avenue departed Saturday evening for Scranton, Pa., where Mr. Westfall was called by the critical illness of his aged mother, Mrs. Mary Westfall of that city.

Mrs. John H. Rose of 26 Chestnut street, who has been ill at her home for some time, on the advice of her physician, Dr. David H. Mills, has

been removed to the Fox Memorial hospital for treatment.

Mrs. W. L. Hendy and daughter, Leona, were in Albany on Saturday. On her return she was accompanied by her son, Harold, who had been visiting his grandparents Mr. and Mrs. A. G. Hubbell in New York city.

Miss Helen G. Hake of Hudson, who came here to attend the Junior "prom" at the Normal Friday night, returned home yesterday afternoon.

Miss Hake was a member of last June's graduating class at O. N. S. C. M. Witthoft, a member of the theological class of 1922, Hartwick Seminary, who preached yesterday morning in the First Evangelical church of Troy, was in this city last evening on his way back to the Seminary.

Mr. and Mrs. Myron Edson of Portlandville, Mr. and Mrs. George W. Rose of Colliersville and Mrs. Minnie Southworth of Milford, who had been spending the past six months at Daytona Beach, Fla., arrived in Oneonta Saturday after a pleasant winter, en route to their respective homes.

Mrs. Howard E. Farmer and Leslie D. Farmer of Roadville, Mass., and Jay L. Farmer of East Orange, N. J., are in the city to be present at the interment of the body of their husband and father, the late Howard E. Farmer, which was placed in the vault at Riverside cemetery yesterday morning in the funeral on March 20, last. They are guests while in Oneonta of Mr. and Mrs. A. B. Tohey.

Herbert Swartiguer, formerly in the employ of C. E. Ford here now a successful optician at Rockville, Conn., who had been visiting his brother, F. S. Swartiguer here, and his sister, Mrs. Lockwood, in Bainbridge, returned home yesterday. F. S. Swartiguer, who suffered a shock some weeks since, evidences some symptoms of improvement though still confined to his home.

W. F. Eggleston, who had been on an extended European trip arrived home Sunday morning and as he stepped from the coach to the ground at the D. & H. station his face bore evidence unmistakable that he was delighted again to be at home in Oneonta. Mrs. Eggleston stopped for a short visit in Albany and Mr. and Mrs. Alva Seybolt halted in New York for a visit with their daughter there. The other tourists are expected to reach Oneonta this evening.

A leading figure

Do you know why the figure 8 is a leading figure in connection with the 1900 Categorical Electric Washer? Because that figure 8 makes the 1900 the perfect washing machine!

By means of this magic figure, the soapy cleansing water is forced back and forth through the clothes in a figure 8 motion four times oftener than in the ordinary washer!

And then, take the shiny copper tub of the 1900—not a single thing in it to cause wear and tear on the clothes—nothing to lift out and clean after the wash is finished.

Then, too, there's the wringer—it works electrically also, is reversible, and can be shifted from the washer to the clothes basket without moving the washer one inch.

But there, you will want to see for yourself what the 1900 will do. Let us deliver one right to your home so that you can try it out. Then after you have seen what it will do, start paying for it on terms to suit your convenience.

Call, phone, or write.

HEALTH SERVICE

BATTLES VICE

SCIENCE OUSTS SENTIMENT

Little Known Government Bureau Saves Many Millions.

When a new chief of police was appointed recently in Washington the announcement went forth that gamblers, bookmakers, drug peddlers and other forms of underworld entertainment had better seek fresh fields for their game. Those forms of vice which exist in every city which has no strong civic consciousness were running wide in Washington. They were run very quietly, but the door was always open.

With the announcement that the new chief of police would start a determined effort to clean up the capital city, a little known bureau of government stepped forward with a long list of places on which evidence had been obtained. Vice was rampant on the very doorsteps of the capitol building itself, the report showed.

The quiet government bureau which had collected these facts goes by the name of the United States interdepartmental social hygiene board. The "interdepartmental" comes from the fact that the secretaries of war, the navy and the treasury are on the board, as are the surgeon generals of the army, navy and public health service.

The active head of the board is a woman, Dr. Valeria H. Parker, who has had wide experience in social work. Before accepting the position as chief of the board, she was in charge of the national committee of the National League of Women Voters and a member of the section of delinquency of the National Conference of Social Work.

The government work on vice is organized through this bureau. The board is definitely charged with the duty of protecting the health of the men in uniform while they are in civilian communities. So well has the work been done that in one year it is estimated that over \$1,000,000 was saved the government by the hospitalization of infected men, had not the reduced. The cost of the work has been about \$225,000. It is a paying proposition.

Science Supplants Sentimentality. The government's war on vice represents a new and powerful force at work throughout the nation today. Science, substituted for sentiment in giving the world a new sense of public safety.

The scientific side of reforms and reformers is the view taken by the interdepartmental social hygiene board. Interested in the health of the nation, the scientific side of health and disease is being preached at every opportunity through public health meetings in every state, by health officers and men, public health officers and representatives of societies interested in the question. The moral side of the question is being left to the churches, falling properly within their province.

The medical approach to the subject by the hygiene board is short and direct. "Science has proved that no way has been found to make vice safe. Therefore the only safe thing to do is to attack vice. This plan has a proven record and is an excellent example of the cheaper to prevent than cure policy of modern medical practice."

Just how heavy the vice toll becomes was gathered from the records of the public health service, which is working on the problem as it affects civilian life while the social hygiene board handles the military end of the matter. Physicians of the service estimate that about 1,500,000 cases of diseases due solely to bad social conditions occur each year.

From the medical standpoint this means great danger of passing on to the next generation a violent bacillus so insidious in its effect that few children live under the handicap and those who do are sickly and weak. From the national standpoint there is the danger of having effective citizens.

Vice Cost Is Big. The social hygiene board places the cash cost of this social ills merely among the soldiers in the army during the war period. The cost was placed at \$15,000,000. The cost was out in 1920 to about \$5,000,000. It is about one-third less this last year, due to the more effective preventive work, previously mentioned.

In civilian circles medical records are harder to obtain. The accurate type of record kept by the army and navy is not available for civilian affairs. But the draft records show that in civilian life at least \$54,000,000 a year is the wage loss alone, due to these social diseases. This is simply the amount lost due to the inability of people so afflicted to perform any useful work. The figure is based on a daily wage of only \$4 and is probably low, as disease plays no favorites, but hits all classes of society, rich and poor alike.

The American Social Hygiene society which has long conducted a war against this plague estimates that the complete cost of these ills, largely preventable, is \$188,000,000 in one state, Illinois, alone. Ohio's cost is placed by authorities at about \$100,000,000.

An Argentine Auto Race

Ovides, the South American idol, finishing first in the race from Buenos Aires to Rosario. Thousands watched the event.

These figures include items such as doctor's fees, lost wages, expensive drugs needed for the cures, which are not met by the individual, then partial costs for maintaining hospitals for the insane and the blind, the cost of treating women who become infected through marriage and are forced to undergo complicated operations, much of which is met by the taxpayer, for much of this work is done at public expense, for the general protection of all.

The old idea that segregated districts tended toward safety in vice has been exploded, it is claimed, as the disease rate among troops in America was about one-third that of troops in foreign countries, where the open districts were in operation.

Vice cannot be abolished by laws, the board holds. Education along the proper lines of sex is essential. The subject which has been hidden under a blanket of assumed innocence must be exposed to the light of understanding. The cure will be brought about that way.

Dr. Parker declared that boys are naturally just as clean-minded as girls. Yet boys, she holds, do not receive in the average home the same instruction on physical questions which come to the girls. The result is that the girls are more clean-minded at the critical age. But she also added that the whole subject does not receive the attention it needs as a primary one in life. The home, the church, the schools, all slumber, she declared, and when sex becomes part of a boy's life he has had little instruction and is generally allowed to drift along as best he can, exposed to the bad influence, too often, of commercialized vice.

Predicts Tighter Laws. The laws in the United States, Dr. Parker believes, as they relate to this question, will become more stringent as time goes on. The United States is leading among the nations in taking action on this question. Regarding the enforcement of prohibition, it was thought that the question would gradually work itself out, when more people had paid the price of blindness or death from bootleg poison. But by stringent laws, it is not meant that the movies would be darkened or that grandpa's pipe would be taken away. The entrance of women into politics probably will lead to more effective laws and heavier penalties for vice operators.

The work of the board throughout the nation is carried on through nine district officials, each a field representative. These in turn are aided by field agents, located in cities near the army and navy posts. The field agents keep in touch with the medical officers of the armed forces and receive weekly reports as to how much or how little commercialized vice in each locality is closing the health of the men. Closing the red light district in one city resulted in cutting the disease rate from 100 to 27, which is cited as a "health example in disease prevention."

The field agents keep in touch with the municipal, county and state health officials, police officers and other organizations. Thus, very accurate figures are obtainable on the commercialized vice question. The board's figures are also good indicators of the conditions which exist among the civilian population. Through these field officers the board is quickly able to place its hands on the vice situation in any part of the country. The results have been that seventy-seven districts have been closed, and that hundreds of cities have staged "clean-ups" which will have an important effect on the future generations of Americans.

Bowling Is Old Diversion. Bowling once was forbidden by law. The game was originally nine-pins, and was called "cloche," the definition being given as: "Cloche, the game at nine-pins; forbidden by statute, anno 17 Ed. IV." The prohibition was afterward withdrawn and the game became very popular. It was once also a popular gambling game in the United States and in some states was prohibited by law. The law was evaded by adding another pin and calling it ten-pins.

Why Should He Be Surprised? Culture will crop out. A Boston golf player writes to the Outlook telling how his caddy gave him a bit of a surprise. "The golfer had played his ball into the rough, and they had about given it up for lost, when suddenly the youngster's eye lit upon it. Did he boller, ungrammatically? 'I got it, mister?' Not this lad. Raising the ball hot, he exclaimed triumphantly: 'Mirabile dictu—it's found!'"—Boston Transcript.

\$15,000,000 FUND SOUGHT BY BAPTISTS

Mrs. Helen Barrett Montgomery

Whirlwind Campaign Under Way to Raise Money Needed for Work at Home and Abroad.

"God's Work Must Go On" Declaring that "Hard times must not be allowed to hinder the work of the denomination, and God's work must go on, in spite of the present financial crisis," Northern Baptists of the United States have begun a whirlwind campaign to raise \$15,000,000 between now and April 30th.

This sum is the major part of approximately \$19,000,000 which Northern Baptists determined upon as the amount necessary to carry on their work during this fiscal year. Without the \$15,000,000 the activities of the denomination on both home and foreign fields would be seriously hampered, no new work could be entered upon, and some of the missionaries already on the fields might have to be recalled.

Denominational forces throughout the country have therefore rallied to the present need, and are organizing for the campaign, from the children in the Sunday-schools to the heads of the great metropolitan churches.

Northern Baptist leaders declare that they have full faith in the success of the campaign.

"We are confident that our people will respond to the need," stated Dr. John Y. Aitchison, General Director of the General Board of Promotion of the Northern Baptist

PLOW ON

LET US FINISH THE FIELD

Without your money
the work must stop
at home and abroad.

Have you pledged?
Have you paid?
Have you been?

It's your hand on the plow!

Dr. John Y. Aitchison

"Our People Will Not Fail in This Crisis," says Dr. Aitchison, head of the Movement.

Convention. "Northern Baptists will not fail our Lord or our messengers in this crisis."

Mrs. Helen Barrett Montgomery, President of the Northern Baptist Convention, the first woman who has ever held such an office in any denomination, declared that she felt sure the campaign would succeed.

"We might think it impossible in such times as these if we did not know that with God all things are possible," she said. "Too many of our members really believe in prayer and hard work for our campaign to fail."

A complete organization has already been set up for the drive. Each of the 34 states which comprise the Northern Baptist Convention has been divided into districts, with 10 to 20 churches in each district in charge of a volunteer campaign director. More than 70 national speakers, the best known men and women of the denomination, including several missionaries now on furlough in this country, will aid in rallying enthusiasm for the campaign.

Dr. Hugh A. Heath of New York, Executive Secretary of the Department of Conferences and Conventions, says that the denomination is better organized for a campaign than it has ever been before.

Baptist business men throughout the country have formed a Northern Baptist Laymen's Council, which will direct their work in the drive. Their organization consists of two laymen from each state in the Northern Baptist Convention, 15 members at large. F. W. Freeman of Denver, Colorado, is general chairman, while L. A. Broadway of Pasadena, California, F. A. Grow of Chicago, E. L. Ballard of New York, and A. L. Scott of Boston, will serve as vice-chairmen.

Women of the denomination are undertaking to raise \$2,000,000 of the \$15,000,000. For this purpose the Women's American Baptist Home Mission Society and the Woman's American Baptist Foreign Mission Society are co-operating in a Continuation Campaign. Mrs. George W. Coleman of Boston, will direct the raising of this sum, as Chairman of the Continuation Campaign Committee, and among those who will assist her will be Mrs. Andrew MacLeish of Glenview, Illinois, President of the Woman's American Baptist Foreign Mission Society, and Mrs. K. Westfall of New York, Executive Secretary of the Woman's American Baptist Home Mission Society.

WILL PRESERVE HISTORIC FORT

Daughters of American Revolution Plan Reconstruction of Famous Fort Crawford.

ORIGINAL WAS BUILT IN 1812

Most Famous of Any of the Forts in the Northwest Has Fascinating History—Zachary Taylor Once Commandant.

Prairie du Chien, Wis.—Preservation and eventual reconstruction of historic Fort Crawford is forecast by the action of the Prairie du Chien chapter of the D. A. R. in securing an option on the property from W. R. Graves, its owner, in an effort to preserve it for historical purposes.

Fort Crawford was the most famous of any of the forts in the Northwest. The original post, Fort Shelby, was built during the war of 1812. Hardly had the first American troops taken possession of it, when a detachment of British troops, re-enforced by Indians, came down the Wisconsin river and laid siege to it. The garrison was forced to surrender and for a year the Union Jack floated over the frontier post and southwestern Wisconsin was a part of the British empire.

Buildings Ruined by Fire. At the close of the war of 1812 the fort was evacuated and shortly afterward most of the buildings were gutted by fire.

The American government then rebuilt the fort on the same site, calling it Fort Crawford. Later a new site was chosen a mile south on higher ground and a larger Fort Crawford was erected.

Zachary Taylor, later President of the United States, was commandant of it at one time. One of his lieutenants was Jefferson Davis, who led the southern Confederacy through the Civil war. Davis fell in love with Taylor's daughter and married her, to the great displeasure of the commandant.

The fort surgeon was Doctor Beaumont, whose assistant, Martin St. Alexis, had a bullet hole in his stomach. Through this hole Doctor Beaumont studied the processes of digestion. The experiments thus conducted still form the major part of the knowledge medical science has of the stomach and its functions. St. Alexis is mentioned in many school physiology.

Other Notables at Fort. Others stationed at the fort at various times were the historian, Henry Schoolcraft; the artist, George Catlin; and Gen. William Clark, Lewis Cass and Winfield Scott.

The treaties of 1826 and 1830, where the Indians deeded away the last of their lands east of the Mississippi river, were signed at Fort Crawford. The Black Hawk war centered about it, and Abraham Lincoln, then a young lieutenant was stationed at the fort during this conflict. Chief Blackhawk was taken to the post as a prisoner after his capture by the Winnebago chiefs after the rout of the Sacs and Foxes at the Battle of Bad Axe.

Near the site of the fort is Fort Crawford cemetery, where those who died during their term of service were buried. The cemetery is government owned and well cared for.

7 MONTHS' GAIN, \$15,000,000

Col. Humphreys Began in Mexia Oil District With "Shoe-string"—Now Millionaire.

Mexia, Tex.—In a period of seven months the wealth of Col. E. A. Humphreys has increased from a few dollars to more than \$15,000,000.

He began operating in the Mexia field when this was wildcat territory and he had no more than a "shoe-string" to go on. The other day he incorporated into one company all of his holdings. This new corporation has a capital of \$15,000,000, of which Colonel Humphreys owns 70 1/2 per cent. The remaining 29 1/2 per cent is held by the Pure Oil company interests.

Besides the oil holdings which Colonel Humphreys turned into the new company he has many other large private investments. It is stated that the two other companies, the Humphreys Mexia Oil company and the Humphreys Texas Oil company, which were merged into the Humphreys Oil company, will be dissolved. It is stated that the extent of the proposed operations of the new company is not as yet publicly known.

Wire Relic to Be Preserved.

Portland, Ind.—An oddity is on display in the office of Henry Martin Jay county auditor. It is a piece of the first barbed wire ever made in this country and was brought to the auditor by L. P. Fenning of New Corydon, northeast of this city. The wire is in links of a length of three or four inches instead of being one twisted piece as the wire is now made. The antique piece of wire will be placed in the museum of the courthouse.

KIDNEY TROUBLES Conquered or Money Back

For 40 years says Dr. Carey, I have been prescribing Marsh Root for Kidney and Bladder troubles on the money back if dissatisfied plan. It has wonderfully benefited tens of thousands. Results guaranteed. Recommended and sold by H. R. Carter, druggist and all druggists. Just a few lines.

INTENSIVE GARDEN WORK

If Land is Harder to Find Than Time to Work It, Adopt Methods of European Farmers.

Ithaca, April 30.—The town or city gardener who has to content himself with limited space might be comforted by the European farmer, and the man who has all the garden room he wants to the American farmer in methods, according to the gardeners at the state agricultural college here. One seeks the greatest possible production from a limited area, and the other, maximum production from a given amount of time and labor. The methods of the two vary accordingly.

The man with the small garden may have relatively more leisure hours to work it as compared with the one whose larger area puts time and labor at a premium.

Use Intensive Methods.

The intensive gardener has his soil as fertile as possible, spaces the rows closely and follows one crop by another the same year as often as possible. Onion sets are thrust into the ground wherever there is a vacant space, radishes are grown between rows of carrots and parsnips and are gone before the later crops need the space. Lettuce appears between cabbage rows and even between plants in the row, and peas and early turnips are removed in time for late snap beans.

The extensive gardener, on the other hand, to whom time and labor are more of an item than land, lays out his garden with long straight rows spaced far enough apart for horse cultivation, or at least for easy wheel-hoe work. He need not feed his soil so heavily nor does he pay so much attention to intercropping and succession crops as the man who has more time than ground.

Try a Classified "Ad" in The Star—They Produce Results

Wall Paper offers every opportunity for the expression of individual taste. Its charm of color invites admiration. The service it renders spells economy.

Everything that it goes to make a room beautiful costs more than good Wall Paper. Yet nothing contributes as much to the finished result.

Newly papered walls create a different atmosphere. They radiate a warmth of welcome—of good cheer.

Our aim is SERVICE and the sale that does not result in satisfaction to the purchaser as well as the dealer is a liability rather than an asset. Our endeavor is to satisfy and our slogan:

SATISFACTION IN EVERY ROLL

We invite your inspection of our New Spring Papers and can offer you excellent values in attractive patterns from 15 cents a roll upwards.

We have many other patterns at 5c, 8c, 10c and 12c a roll. Varnished Tiles at 40c. Fast Color, best quality Oatmeal at 25c.

We stock the "Birch" Wall Papers, which are conceded to be the foremost line of Quality Papers made in the United States.

CHEESE AND BACTERIA

Type of Organisms Present Determines Quality of Cheese.

Quality in cheese, as determined by flavor and texture, was found to be influenced to a large extent by the kind of bacteria present in the cheese, according to experts at the Experiment station at Geneva who have just completed a study of the various types of organisms occurring in different grades of American cheddar cheese purchased in the open market in the better grades of cheddar cheese, say the experts, there is a preponderance of certain kinds of beneficial organisms which are commonly present in good cheese milk or else are introduced as a "starter" by the cheese maker, while, in the case of the poorer grades of cheese, quite different types of organisms were found to predominate and were therefore regarded as undesirable kinds for the production of high grade cheese.

Dust, dirt, fecal material, etc., are regarded as the common source of the undesirable types of bacteria found in poor grade cheese and the desirability of protecting cheese milk from such contamination is emphasized.

Curd Test Uncertain.

"Methods for detecting these types of bacteria in the milk received at the cheese factory are not satisfactory," say the experts. "The curd as commonly used, serves as an indication

of the quality of the milk but cannot be relied upon as a means for selecting milk for cheese making, due to the fact that both the desirable and the undesirable organisms in the milk give much the same reactions to the test. The cheese maker needs a more reliable and rapid test which will enable him to reject milk containing undesirable bacteria and to select milk which will yield a high grade product.

"Under these conditions it is very important that the cheese maker demand that the milk brought to the cheese factory be produced under sanitary conditions and be protected from outside contamination."

Office Discontinued.

Announcement is made that the American Railway Express office at Fraser has been discontinued and that packages should be addressed to Delhi.

If in want of small chicken and truck farm handy to city read this—50 acres, dandy house with furnace, good basement, barn, wagon house, garage, good fruit, running water, 400 hens, wagons, sleigh and other small tools. Price \$5,500. Smith and Peaslee, 130 Main street. Advt. 6t.

We have a full line of corsets from \$1.75 per pair. Barely, custom made, also corsetlets, and brassiers, all sizes. Room for fitting. The Fleming Elite shop, 192 Main street Over Becker's bakery. Advt. 9t.

OVER ON SOUTH SIDE

Record Egg Laid in Griffin's Hennyery—Mr. and Mrs. Bowdish Moved to Son's Home in Massachusetts.

South Side lays claim to a new record for "monster eggs" in this vicinity. A last summer's White Leghorn pullet residing in Charles Griffin's spacious hennyery announced to the world on Saturday that she had laid an unusually large egg and upon measuring it, Mr. Griffin found it to be 6 1/2 by 8 inches. The last record reported heretofore was a 7 1/4-inch egg laid by a Worcester chicken.

Mr. Griffin, who delves extensively in the poultry business, has one of the finest hennyeries along the South Side road and has a large flock of poultry. He displayed the big egg to his neighbors and friends, who were unanimous in declaring it "the best yet."

Mr. and Mrs. Bowdish Leave.

Mr. and Mrs. George M. Bowdish who have been in feeble health for some time, were removed in an automobile on Saturday from their home on South Side to Sheffield, Mass., where they will in the future reside with their son, Prof. L. R. Bowdish. Mrs. Bowdish has been in a critical condition, and it was thought advisable to remove her to the son's home so that she could have better care. The many friends of the aged couple regret their departure but will hope for an early improvement in their condition.

Automobile Rams Hay Rigging.

While James Smith was driving his team attached to a hay rigging along the South Side road Saturday, the vehicle was struck by an automobile coming from behind. The impact frightened the team, which ran away and had quite a little jaunt before being stopped. They soon broke loose from the wagon and when Mr. Smith saw that it was impossible to stop them he dropped the reins. Practically the only damage was to the harness, which was badly broken. Mr. Smith suffered a few bruises, but is none the worse for his experience.

Personal Notes.

Mr. Flora Hand, Mrs. Ray Jenks and Miss Lillian Cook have returned to their homes in Hartwick after being guests for a few days of Mrs. Fred Whipple South Side.

Kenneth Graves who recently underwent an operation for tubercular glands is little improved and friends of the youth are concerned over his condition.

SHEFFIELD'S MAY PRICE

Company and Producers' Association Agree Saturday to Minimum of \$1.70 For Milk.

Inquiry at the Hobart office of the Sheffield Farms company Saturday afternoon brought the information that the Sheffield companies will pay its producers for this milk not less than \$1.70 per hundred pounds for three per cent milk in the 200-mile zone with the usual freight differential. This is five cents per hundred pounds less than the Sheffield company paid for April.

Officials of the Sheffield Farms company and the Committee of Fifteen representatives of the Sheffield Producers' association met in New York Saturday morning and agreed upon the price, after a lengthy conference. The market conditions in the milk industry.

Members of the Sheffield Producers' association and non-producers generally throughout this section are pleased with the price.

Water Rents.

For the accommodation of those who have been unable to pay their water rent, due April 1st, the time for payment, without percentage, has been extended to May 3d, as allowed by the rules of the company. Open 9 to 12, 1 to 4, Saturdays, 9 to 12; evenings, 7 to 8. Oneonta Water Works company. Advt. 7t.

Three pounds rice for 25c at Palmer's grocery. Advt. 2t.

NEW APPARATUS AND DEVICES

By RALPH BROWN

RADIO ENGINEER, CUTTING AND WASHINGTON RADIO CORP.
AN AUTOMATIC FILAMENT CURRENT ADJUSTER.

The life of a vacuum tube depends principally upon the tungsten filament, and when a tube filament is "burned out" the tube is useless. There are other considerations limiting the life of a tube aside from the "burning out" of the filament. One of the most important is the crystallization of the tungsten, which occurs when the filament is burned at too low

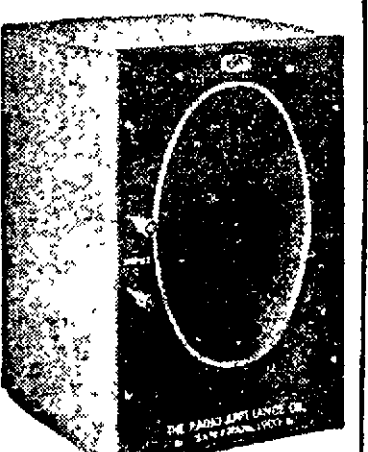

Photo by Radiall Company.

a temperature. This crystallization results in breakage of the filament, when the tube is subjected to vibration. On the other hand, even though the filament may not be promptly burned out, a temperature only slightly above that required for proper operation causes the tungsten to be rapidly vaporized and its life to be greatly decreased. The proper operating temperature for the kind of tungsten filament used in a vacuum tube is in the neighborhood of 2,200 degrees centigrade. The

operating range is rather small, and it takes but a small turn of a rheostat knob, one way or the other, to increase or decrease the operating temperature above or below the normal necessary for long life. In fact, it is quite difficult for the ordinary person to ascertain whether or not the filament is being burned at the proper temperature when rheostats are used.

Having the above in mind, a manufacturer has recently placed upon the market a device which can be used to replace the rheostat and which will automatically adjust the filament temperature to the proper value. It does this without any attention on the part of the operator, when the usual six volt battery is used for filament lighting. As shown in the illustration, the device is quite simple. It can be mounted inside of a cabinet receiver or amplifier and takes less space than a rheostat. The claim that the device makes vacuum tube operation absolutely "foolproof" appears to be well founded, and, if it lives up to claims made for it will be the means of saving many a dollar to the radio enthusiasts.

A NEW CABINET LOUD SPEAKER.

An improved and scientifically designed tone chamber is one of the principal claims made for the loud speaker illustrated. The binding posts marked "input" are connected to a Baldwin telephone receiver, and the latter is mechanically attached to the small inner opening of the tone chamber.

The cabinet is of walnut and measures 5 in. x 12 1/2 in. x 8 1/2 in. It makes a very pleasing appearance and can be set right alongside the cabinet receiving set.

It is claimed that the sounds from this loud speaker are much more pure and pleasing than from the ordinary horns often used for reproduction. This claim is well founded because the tone chamber is of a non-metallic composition, and there is no metallic sound, therefore, to the music coming from the device.

A Herald-Sun Feature.
